INDEPENDENT AUDITORS' REPORT

To the Honorable County Judge And County Commissioners Orange County, Texas

Report on the Financial Statements

We have audited the accompanying financial statements of the governmental activities, each major fund, and the aggregate remaining fund information of Orange County, Texas, as of and for the year ended September 30, 2015, and the related notes to the financial statements, which collectively comprise the Orange County, Texas' basic financial statements as listed in the table of contents.

Management's Responsibility for the Financial Statements

Management is responsible for the preparation and fair presentation of these financial statements in accordance with accounting principles generally accepted in the United States of America; this includes the design, implementation, and maintenance of internal control relevant to the preparation and fair presentation of financial statements that are free from material misstatement, whether due to fraud or error.

Auditors' Responsibility

Our responsibility is to express opinions on these financial statements based on our audit. We conducted our audit in accordance with auditing standards generally accepted in the United States of America and the standards applicable to financial audits contained in *Government Auditing Standards*, issued by the Comptroller General of the United States. Those standards require that we plan and perform the audit to obtain reasonable assurance about whether the financial statements are free from material misstatement.

956.544.7778

TEMPLE, TX

254.791.3460

An audit involves performing procedures to obtain audit evidence about the amounts and disclosures in the financial statements. The procedures selected depend on the auditors' judgment, including the assessment of the risks of material misstatement of the financial statements, whether due to fraud or error. In making those risk assessments, the auditor considers internal control relevant to the entity's preparation and fair presentation of the financial statements in order to design audit procedures that are appropriate in the circumstances, but not for the purpose of expressing an opinion on the effectiveness of the entity's internal control. Accordingly, we express no such opinion. An audit also includes evaluating the appropriateness of accounting policies used and the reasonableness of significant accounting estimates made by management, as well as evaluating the overall presentation of the financial statements.

We believe that the audit evidence we have obtained is sufficient and appropriate to provide a basis for our audit opinions.

Opinions

In our opinion, the financial statements referred to above present fairly, in all material respects, the respective financial position of the governmental activities, each major fund, and the aggregate remaining fund information of Orange County, Texas, as of September 30, 2015, and the respective changes in financial position, and, where applicable, cash flows thereof and respective budgetary comparisons for the General Fund and Road and Bridge Fund for the year then ended in accordance with accounting principles generally accepted in the United States of America.

Change in Accounting Principle

As discussed in Note 1 to the financial statements, in 2015 the County adopted new accounting guidance, GASB Statement No. 68, Accounting and Financial Reporting for Pensions – an amendment of GASB Statement No. 27 and GASB Statement No. 71, Pension Transition for Contributions Made Subsequent to the Measurement Date – an amendment of GASB Statement No. 68. Our opinion is not modified with respect to this matter.

Other Matters

Required Supplementary Information

Accounting principles generally accepted in the United States of America require that the management's discussion and analysis, the Schedule of Funding Progress – Post-Employment Health Care Benefit Plan, the Schedule of Changes in Net Pension Liability and Related Ratios, and the Schedule of Contributions on pages 4–9 and 43-45 be presented to supplement the basic financial statements. Such information, although not a part of the basic financial statements, is required by the Governmental Accounting Standards Board, who considers it to be an essential part of financial reporting for placing the basic financial statements in an appropriate operational, economic, or historical context. We have applied certain limited procedures to the required supplementary information in accordance with auditing standards generally accepted in the United States of America, which consisted of inquiries of management about the methods of preparing the information and comparing the information for consistency with management's responses to our inquiries, the basic financial statements, and other knowledge we obtained during our audit of the basic financial statements. We do not express an opinion or provide any assurance on the information because the limited procedures do not provide us with sufficient evidence to express an opinion or provide any assurance.

Other Information

Our audit was conducted for the purpose of forming opinions on the financial statements that collectively comprise the Orange County, Texas', basic financial statements. The combining nonmajor fund financial statements and the schedule of expenditures of federal awards is presented for purposes of additional analysis as required by U.S. Office of Management and Budget Circular A-133, *Audits of States, Local Governments, and Non-Profit Organizations*, are presented for the purposes of additional analysis and are not a required part of the basic financial statements.

The combining nonmajor fund financial statements and the schedule of expenditures of federal awards are the responsibility of management and were derived from and relate directly to the underlying accounting and other records used to prepare the basic financial statements. Such information has been subjected to the auditing procedures applied in the audit of the basic financial statements and certain additional procedures, including comparing and reconciling such information directly to the underlying accounting and other records used to prepare the basic financial statements or to the basic financial statements themselves, and other additional procedures in accordance with auditing standards generally accepted in the United States of America. In our opinion, the combining nonmajor fund financial statements and the schedule of expenditures of federal awards are fairly stated in all material respects in relation to the basic financial statements as a whole.

Other Reporting Required by Government Auditing Standards

Pattillo, Brown & Hill, L.L.P.

In accordance with *Government Auditing Standards*, we have also issued our report dated June 29, 2016, on our consideration of the Orange County, Texas' internal control over financial reporting and on our tests of its compliance with certain provisions of laws, regulations, contracts, and grant agreements and other matters. The purpose of that report is to describe the scope of our testing of internal control over financial reporting and compliance and the results of that testing, and not to provide an opinion on internal control over financial reporting or on compliance. That report is an integral part of an audit performed in accordance with *Government Auditing Standards* in considering Orange County, Texas' internal control over financial reporting and compliance.

Waco, Texas June 29, 2016

MANAGEMENT'S DISCUSSION AND ANALYSIS

MANAGEMENT'S DISCUSSION AND ANALYSIS

The *Management's Discussion and Analysis* of the County of Orange's Annual Financial Report (AFR) presents a discussion and analysis of the County's financial performance during the fiscal year that ended September 30, 2015. It should be read in conjunction with the transmittal letter located at the front of this AFR, and the County's financial statements, which follow this part of the AFR.

FINANCIAL HIGHLIGHTS

- The assets and deferred outflows of resources of Orange County exceeded its liabilities and deferred inflows of resources as of September 30, 2015, by \$32,548,907 (net position). Of this amount, (\$14,865,854) represents unrestricted net position. This balance, if positive, would be used to meet the County's ongoing obligations to citizens and creditors in accordance with the County's fund designation and fiscal policies.
- The County's total net position increased by \$806,910 from operations. A decrease to beginning net position of \$6,570,772 was a result of the implementation of GASB Statements Nos. 68 and 71, which required the County to report its net pension liability related to its defined benefit pension plan.
- As of the close of the current fiscal year, Orange County's governmental funds reported combined ending fund balances of \$10,887,367. Of this amount, \$3,768,385 is unassigned fund balance which, if positive, would be available for use within the County's discretion.
- As of September 30, 2015, unassigned fund balance for the General Fund was \$4,044,700 or 9% of the total General Fund budgeted expenditures and other financing uses.

OVERVIEW OF THE FINANCIAL STATEMENTS

This discussion and analysis is intended to serve as an introduction to the County's basic financial statements. The County's basic financial statements are comprised of three components: (1) government-wide financial statements, (2) fund financial statements and (3) notes to the financial statements. This report also contains other supplementary information in addition to the basic financial statements themselves.

Government-wide financial statements – The government-wide financial statements are designed to provide readers with a broad overview of the County's finances, in a manner similar to a private-sector business.

The *Statement of Net Position* presents information on all of Orange County's assets and deferred outflows of resources and liabilities and deferred inflows of resources with the difference between them reported as *net position*. Over time, increases or decreases in net position may serve as a useful indicator of whether the financial position of Orange County is improving or deteriorating.

The *Statement of Activities* presents information showing how the government's net position changed during the most recent fiscal year. All changes in net position are reported as soon as the underlying event giving rise to the change occurs, *regardless of the timing of related cash flows*. Thus, revenues and expenses are reported in this statement for some items that will only result in cash flows in future fiscal periods (e.g., uncollected taxes and earned but unused compensated absences).

Fund financial statements – A *fund* is a grouping of related accounts that is used to maintain control over resources that have been segregated for specific activities or objectives. The County, like other state and local governments, uses fund accounting to ensure and demonstrate compliance with finance-related legal requirements. All funds of the County are categorized as governmental funds or fiduciary funds.

Governmental Funds – Governmental funds are used to account for essentially the same functions reported as governmental activities in the government-wide financial statements. However, unlike the government-wide financial statements, governmental fund financial statements focus on *current sources* and uses of spendable resources, as well as on balances of spendable resources available at the end of the fiscal year. Such information may be useful in evaluating a government's near-term financing requirements.

Because the focus of governmental funds is narrower than that of the government-wide financial statements, it is useful to compare the information presented for *governmental funds* with similar information presented for *governmental activities* in the government-wide financial statements. By doing so, readers may better understand the long-term impact of the government's near-term financing decisions. Both the governmental fund balance sheet and the governmental fund statement of revenues, expenditures, and changes in fund balances provide a reconciliation to facilitate this comparison between *governmental funds and governmental activities*.

Orange County maintains six individual governmental funds. Information is presented separately in the governmental fund statement of revenues, expenditures, and changes in fund balances for General Fund and Road and Bridge Fund both of which are considered to be major funds. Data from the other four governmental funds are combined into a single, aggregated presentation. Individual fund data for each of these nonmajor governmental funds is provided in the form of *combining statements* elsewhere in this report.

Orange County adopts an annual appropriated budget for its General Fund and four other funds. Budgetary comparison statements have been provided for the General Fund and Road and Bridge Fund to demonstrate compliance with these budgets.

Fiduciary Funds – Fiduciary funds are used to account for resources held for the benefit of parties outside the government. Fiduciary funds are *not* reflected in the government-wide financial statement because the resources of those funds are *not* available to support Orange County's own programs.

Notes to the Financial Statements – The notes provide additional information that is essential to a full understanding of the data provided in the government-wide and fund financial statements.

Other Information – In addition to the basic financial statements and accompanying notes, this report also presents combining fund statements and schedules that further support the information in the financial statements.

GOVERNMENTAL-WIDE FINANCIAL ANALYSIS

Governmental Activities:

As noted earlier, net position may serve over time as a useful indicator of government's financial position. In the case of Orange County, assets and deferred outflows of resources exceeded liabilities and deferred inflows of resources by \$32,548,907 as of September 30, 2015.

A portion of the County's net position, \$41,043,074, reflects its investments in capital assets (e.g., land, buildings, equipment, and construction in progress), less any outstanding debt used to acquire those assets. The County uses these capital assets to provide service to citizens; consequently, these assets are not available for future spending. Although the County's investment in its capital assets is reported net of related debt, it should be noted that the resources needed to repay this debt must be provided from other sources, since the capital assets themselves cannot be used to liquidate these liabilities.

ORANGE COUNTY'S NET POSITION

	Governmental Activities					
	2015	2014				
Current assets Capital assets Total assets	\$ 19,109,318 41,043,074 60,152,392	\$ 13,236,873 41,866,163 55,103,036				
Deferred outflows of resources	3,235,740					
Current liabilities Noncurrent liabilities Total liabilities	6,659,348 23,710,293 30,369,641	4,896,648 11,893,619 16,790,267				
Deferred inflows of resources	469,584					
Net position: Net investment in capital assets Restricted Unrestricted	41,043,074 6,371,687 (<u>14,865,854</u>)	41,866,163 5,251,129 (<u>8,804,523</u>)				
Total net position	\$ <u>32,548,907</u>	\$ 38,312,769				

An additional portion of the County's net position \$6,371,687, represents resources that are subject to external restriction on how they may be used. The remaining balance, (\$14,865,854), of unrestricted net position, if positive, may be used to meet the County's ongoing obligation to citizens and creditors in accordance with the County's fund designation and fiscal policies. The overall net position of the County increased by \$806,910 this year from operations.

Analysis of the County's Operations – The following table provides a summary of the County's operations for the year ended September 30, 2015.

ORANGE COUNTY'S CHANGES IN NET POSITION

NET POSITION, ENDING	\$32,548,907	\$ 38,312,769				

FINANCIAL ANALYSIS OF THE GOVERNMENT'S FUNDS

Governmental funds – The focus of the Orange County's governmental funds is to provide information on near-term inflows, outflows, and balances of *spendable* resources. Such information is useful in assessing the County's financing requirements. In particular, *unreserved fund balance* may serve as a useful measure of a government's net resources available for spending at the end of the fiscal year.

At the end of the current fiscal year, the Orange County's governmental funds reported combined ending fund balances of \$10,887,367. Approximately \$3,768,385 constitutes unassigned fund balance, \$747,295 represents fund balance assigned for use in the subsequent year's budget (due to the adoption of a deficit budget in the General Fund for FY 2015), and the remaining \$6,371,687 of the fund balance is restricted to indicate that it is not available for discretionary spending because it is restricted by third parties to pay for specific items. The actual increase to fund balance for the General Fund was \$3,956,837 for fiscal year 2015.

In the General Fund, the variance in actual revenue received compared to the budgeted amount was \$1,381,013. Sales taxes collected were \$978,323 greater than budget and forfeitures were \$975,927 more than budget. Fees of office was \$640,241 more than expected. Additionally, other governmental support was under budget by \$1,139,960. This variance is the result of grant expenditures and related revenues being less than expected during the current year.

GENERAL FUND BUDGETARY HIGHLIGHTS

Differences between the original budget, final amended budget and actual revenues and expenditures are briefly summarized below:

- Actual revenues were more than the budgeted revenues by \$1,381,013.
- Actual revenues were more than actual expenditures by \$4,101,163.
- Actual expenditures were less than the final budgeted amount by \$5,941,571.

CAPITAL ASSETS

Orange County's investment in capital assets for its governmental activities as of September 30, 2015, amounts to \$41,043,074 (net of accumulated depreciation). This investment in capital assets included land, building, software, equipment and improvements (other than buildings). Major capital asset events occurring during the current fiscal year included the following:

- Capitalized \$928,420 in software for the Sheriff's Department;
- Capitalized \$49,690 for a security system for the airport;
- Capitalized \$568,800 in final costs for the Shelter/Expo Center; and
- Capitalized \$275,651 for new County vehicles.

ORANGE COUNTY'S CAPITAL ASSETS (net of depreciation)

	Governmental Activities						
	2015	2014					
Land	\$ 1,681,170	\$ 1,681,170					
Buildings and improvements	33,423,251	32,854,450					
Machinery and equipment	14,236,287	14,121,848					
Software	928,420	-					
Infrastructure	27,286,354	27,286,354					
Less: accumulated depreciation	(36,512,408)	(34,077,659)					
Total	\$41,043,074	\$ 41,866,163					

Additional information on the County's capital assets can be found in Note 3 of this report.

DEBT ADMINISTRATION

The accrued compensated absences increased by \$48,681 and reflect accrued time used before revised policy limiting carryover and payout of vacation and holiday leave upon termination takes effect. The OPEB liability increased \$2,812,895 based on the actuarial valuation dated September 30, 2015, and is the result of the County's customary practice of contributing on a pay-as-you-go basis instead of the required annual amount.

In fiscal year 2015, the County was required to implement GASB Statements Nos. 68 and 71. These statements require that the County report its net pension liability as a part of the governmental activities. The ending net pension liability for the County as of September 30, 2015 is \$8,955,098.

ECONOMIC FACTORS AND NEXT YEAR'S BUDGET AND RATES

• Estimated revenue for fiscal year 2015-2016 is \$40,328,384 for the General Fund, and estimated expenditures are \$41,075,679. The tax rate remained the same at \$0.544 / \$100 evaluation.

All of these factors were considered in preparing Orange County's budget for the 2016 fiscal year.

REQUEST FOR INFORMATION

This financial report is designed to provide a general overview of Orange County's finances for all those with an interest in the government's finances. Questions concerning any of the information provided in this report or requests for additional financial information should be addressed to the Auditor's office, 123 South Sixth Street, Orange, Texas 77630.

RECONCILIATION OF THE STATEMENT OF THE BALANCE SHEET OF THE GOVERNMENTAL FUNDS TO THE STATEMENT OF NET POSITION

FOR THE YEAR ENDED SEPTEMBER 30, 2015

Amounts reported for governmental activities in the Statement of Net Position are different because:

Total fund balances - governmental funds	\$	10,887,367
Capital assets used in governmental activities are not financial resources and, therefore, are not reported in the funds.		41,043,074
Other long-term assets are not available to pay for current-period expenditures and, therefore, are reported as deferred inflows of resources in the funds.		
Property taxes		2,607,710
Court fines and fees		943,966
Other deferred inflows and deferred outflows of resources related to pensions are reported in conjunction with the net pension liability and are not reported in the funds.		2,766,156
Long-term liabilities are not due and payable in the current period and therefore are not reported in the funds.		
Net pension liability	(8,955,098)
Net OPEB obligation	(12,189,795)
Compensated absences	(2,565,400)
Claims payable	(1,989,073)
Net position of governmental activities	\$	32,548,907

NOTES TO FINANCIAL STATEMENTS

FOR THE YEAR ENDED SEPTEMBER 30, 2015

1. SUMMARY OF SIGNIFICANT ACCOUNTING POLICIES

The County of Orange, Texas, was incorporated in 1852 and is an incorporated body of the State of Texas. The County is located in the southeastern most area of the state, with its eastern border the state line between Texas and Louisiana and its southern boundary the Gulf of Mexico. The executive branch of the County operates as Commissioners' Court, with the County Judge as chief administrative officer.

The financial statements of Orange County have been prepared in conformity with generally accepted accounting principles (GAAP) as applied to governmental units. The Governmental Accounting Standards Board (GASB) is the accepted standard-setting body for established governmental accounting and financial reporting principles. The more significant of these accounting policies are described below with subsequent pronouncements referred.

A. Reporting Entity

The County is an independent political subdivision of the State of Texas governed by an elected four-member Commissioners' Court and County Judge and is considered a primary government. As required by generally accepted accounting principles, these financial statements have been prepared based on considerations regarding the potential for inclusion of other entities, organizations, or functions as part of the County's financial reporting entity. Based on these considerations, no other entities have been included in the County's reporting entity. Additionally, as the County is considered a primary government for financial reporting purposes, its activities are not considered a part of any other governmental or other type of reporting entity.

Consideration regarding the potential for inclusion of other entities, organizations, or functions in the County's financial reporting entity is based on criteria prescribed by generally accepted accounting principles. These same criteria are evaluated in considering whether the County is a part of any other governmental or other type of reporting entity. The overriding elements associated with prescribed criteria considered in determining that the County's financial reporting entity status is that of a primary government are that it has a separately elected governing body; it is legally separate; and it is financially independent of other state and local governments. Additional prescribed criteria under generally accepted accounting principles include considerations pertaining to organizations for which the primary government is financially accountable; and considerations pertaining to other organizations for which the nature and significance of their relationship with the primary government are such that exclusion would cause the reporting entity's financial statements to be misleading or incomplete.

B. Government-wide and Fund Financial Statements

The government-wide financial statements (i.e., the statement of net position and the statement of activities) report information on all of the nonfiduciary activities of the primary government. For the most part, the effect of interfund activity has been removed from these statements. Governmental activities, which normally are supported by taxes and intergovernmental revenue, are reported separately from business-type activities, which rely to a significant extent on fees and charges for support. The County has no business-type activities or any component units.

The statement of activities demonstrates the degree to which the direct expenses of a given function or segment is offset by program revenue. *Direct expenses* are those that are clearly identifiable with a specific function or segment. *Program revenue* includes 1) charges to customers or applicants who purchase, use, or directly benefit from goods, services, or privileges provided by a given function or segment, and 2) grants and contributions that are restricted to meeting the operational or capital requirements of a particular function or segment. Taxes and other items not properly included among program revenue are reported instead as *general revenue*.

Separate financial statements are provided for governmental funds and fiduciary funds, even though the latter are excluded from the government-wide financial statements. Major individual governmental funds are reported as separate columns in the fund financial statements.

C. Measurement Focus, Basis of Accounting and Financial Statement Presentation

The government-wide financial statements are reported using the economic resources measurement focus and the accrual basis of accounting. Revenue is recorded when earned and expenses are recorded when a liability is incurred, regardless of the timing of related cash flows. Property taxes are recognized as revenue in the year for which they are levied. Grants and similar items are recognized as revenue as soon as all eligibility requirements imposed by the provider have been met.

Governmental fund financial statements are reported using the current financial resources measurement focus and the modified accrual basis of accounting. Revenue is recognized as soon as it is both measurable and available. Revenue is considered to be available when it is collectible within the current period or soon enough thereafter to pay liabilities of the current period. For this purpose, the government considers revenue to be available if collected within 60 days of the end of the current fiscal period. Expenditures generally are recorded when a liability is incurred, as under accrual accounting. However, debt service expenditures, as well as expenditures related to compensated absences and claims and judgments, are recorded only when payment is due.

Property taxes and interest associated with the current fiscal period are all considered to be susceptible to accrual and so have been recognized as revenue of the current fiscal period. All other revenue items are considered to be measurable and available only when cash is received by the County.

The County reports the following major governmental funds:

The <u>General Fund</u> is the County's primary operating fund. It accounts for all financial resources of the general government, except those required to be accounted for in another fund.

The **Road and Bridge Fund** is used to account for the operation, repair and maintenance of roads and bridges.

Additionally, the County reports the following fund types:

<u>Special Revenue Funds</u> are used to account for specific revenues that are legally restricted to expenditure for particular purposes.

The <u>Debt Service Fund</u> is used to account for accumulation of resources for and the payment of long-term debt principal and interest.

The <u>Internal Service Fund</u> was used to account for the self-insurance program that provides benefits to other departments or agencies of the County. This fund was effectively closed as of September 30, 2015, as the County no longer participates in self-insurance activities.

<u>Agency Funds</u> are used to account for assets that the County holds on behalf of others as their agent.

As a general rule, the effect of interfund activity has been eliminated from the government-wide financial statements. Amounts reported as *program revenues* include: 1) charges to customers or applicants for goods, services, or privileges provided, and 2) operating grants and contributions. Internally dedicated resources are reported as *general revenues* rather than as program revenue. Likewise, general revenue includes all taxes.

D. Assets, Liabilities and Net Position or Equity

Cash and Investments

The government's cash and cash equivalents are considered to be cash on hand, demand deposits and short-term investments with original maturities of three months or less from the date of acquisition.

Investments for the government are reported at fair value. The State Treasurer's Investment Pool operates in accordance with appropriate state laws and regulations. The reported value of the pool is the same as the fair value of the pool shares.

Receivables and Payables

Activity between funds that are representative of lending/borrowing arrangements outstanding at the end of the fiscal year are referred to as either "due to/from other funds" (i.e., the current portion of interfund loans) or "advances to/from other funds." (i.e., the noncurrent portion of interfund loans). All other outstanding balances between funds are reported as "due to/from other funds." As of September 30, 2015, the County had no amounts considered "advances."

All trade and property tax receivables are shown net of an allowance for uncollectibles. Trade accounts receivable in excess of 180 days comprise the trade accounts receivable allowance for uncollectibles.

The County's property taxes are levied annually in October on the basis of the Appraisal District's assessed values as of January 1 of that calendar year. Appraisal values are established by the Appraisal District at market value and assessed at 100% of appraised value less exemptions. The County's property taxes are billed and collected by the Tax Assessor/Collector. Such taxes are applicable to the fiscal year in which they are levied and become delinquent with an enforceable lien on property on February 1 of the subsequent calendar year.

Property taxes are prorated between operations, road and bridge, and debt service based on rates adopted for the year of the levy. For the current year, the County levied property taxes of \$0.544 per \$100 of assessed valuation that were prorated between operations, road and bridge, and mosquito control in the amounts of \$0.47911, \$0.04344, and \$0.02145 respectively. The resulting adjusted tax levies were approximately \$26.2, \$2.36, and \$1.17 million for operations, road and bridge, and mosquito control, respectively, based on a total adjusted taxable valuation of approximately \$5,469,539,500 for the 2014 tax year.

Inventories

The costs of governmental fund-type inventories are recorded as expenditures when purchased rather than when consumed.

Capital Assets

Capital assets, which include land, buildings and improvements, machinery and equipment, construction in progress, and infrastructure (e.g. roads, bridges, sidewalks and similar items) are reported in the governmental activities column in the government-wide financial statements. The County defines capital assets as assets with an initial, individual cost of more than \$5,000 (amount not rounded) and an estimated useful life in excess of one year. Such assets are recorded at historical cost or estimated historical cost if purchased or constructed. Donated capital assets are recorded at estimated fair market value at the date of donation.

Infrastructure assets include roads, bridges, underground pipe (other than related to utilities), traffic signals, etc. These infrastructure assets are likely to be the largest asset class of the County. Neither their historical cost nor related depreciation has historically been reported in the financial statements.

The costs of normal maintenance and repairs that do not add to the value of the asset or materially extend assets' lives are not capitalized.

Property, plant and equipment is depreciated using the straight-line method over the following useful lives:

Assets	Years
Buildings	20-50
Improvements	5-50
Equipment	5-20
Infrastructure (streets and bridges)	35-50

Compensated Absences

The County's employees earn vacation and sick leave, which may either be taken or accumulated, up to certain amounts, until paid upon resignation or retirement. All vacation and sick leave pay are accrued when incurred in the government-wide financial statements. A liability for these amounts is reported in governmental funds only if they have matured, for example, as a result of employee resignations and retirements.

The current policy for vacation pay is that vacation pay accrues as of the "annual" anniversary date of each employee. Vacation leave from 10 to 25 days per year may be earned, based on longevity. Sick leave accrues at 8 hours a month, or 12 days per year, up to a maximum paid benefit for entitlement of 60 days.

Long-term Obligations

In the government-wide financial statements, long-term debt and other long-term obligations are reported as liabilities in the applicable governmental activities. Bond premiums and discounts are deferred and amortized over the life of the bonds using the straight-line method which approximates the effective interest method. Bonds payable are reported net of the applicable bond premium or discount.

In the fund financial statements, governmental fund types recognize bond premiums and discounts during the current period. The face amount of debt issued is reported as other financing sources. Premiums received on debt issuances are reported as other financing sources while discounts on debt issuances are reported as other financing uses.

Pensions

For purposes of measuring the net pension liability, deferred outflows of resources and deferred inflows of resources related to pensions, and pension expenses, information about the Fiduciary Net Position of the Texas County and District Retirement System (TCDRS) and additions to/deductions from TCDRS's Fiduciary Net Position have been determined on the same basis as they are reported by TCDRS. For this purpose, plan contributions are legally due. Benefit payments and refunds are recognized when due and payable in accordance with the benefit terms. Investments are reported at fair value.

Deferred Outflows/Inflows of Resources

In addition to assets, the statement of financial position and/or balance sheet will sometimes report a separate section for deferred outflows of resources. This separate financial statement element, deferred outflows of resources, represents a consumption of net position that applies to a future period(s) and so will not be recognized as an outflow of resources (expense/expenditure) until then. The County has the following items that qualify for reporting in this category.

- Pension contributions after measurement date These contributions are deferred and recognized in the following fiscal year.
- Difference in projected and actual earnings on pension assets This difference is deferred and amortized over a closed five year period.

In addition to liabilities, the statement of financial position will sometimes report a separate section for deferred inflows of resources. This separate financial statement element, *deferred inflows of resources*, represents an acquisition of net position or fund balance that applies to a future period(s) and so will not be recognized as an inflow of resources (revenue) until that time. The County has one type of item, which arises only under a modified accrual basis of accounting that qualifies for reporting in this category. Accordingly, the item, unavailable revenue, is reported only in the governmental funds balance sheet.

The County has only one type of deferred inflows of resources which is required to be reported on the Statements of Net Position under the full accrual basis of accounting. This item, the difference in expected and actual pension experience, is deferred and recognized over the estimated average remaining lives of all members determined as of the measurement date.

Change in Accounting Principles – Prior Period Adjustment

As a result of implementing GASB Statement No. 68, the County has restated the beginning net position, effectively decreasing net position as of October 1, 2014 by \$6,570,772 for the governmental activities. This decrease results from the recognition of the liability from the County's defined benefit pension plan.

Fund Balance Classification

The governmental fund financial statements present fund balances based on classifications that comprise a hierarchy that is based primarily on the extent to which the County is bound to honor constraints on the specific purposes for which amounts in the respective governmental funds can be spent. The classifications used in the governmental fund financial statements are as follows:

Nonspendable: This classification includes amounts that cannot be spent because they are either (a) not in spendable form or (b) are legally or contractually required to be maintained intact. Nonspendable items are not expected to be converted to cash or are not expected to be converted to cash within the next year.

Restricted: This classification includes amounts for which constraints have been placed on the use of the resources either (a) externally imposed by creditors, grantors, contributors, or laws or regulations of other governments, or (b) imposed by law through constitutional provisions or enabling legislation.

<u>Committed</u>: This classification includes amounts that can be used only for specific purposes pursuant to constraints imposed by court resolution of the Commissioners' Court, the County's highest level of decision making authority. These amounts cannot be used for any other purpose unless the Commissioners' Court removes or changes the specified use by taking the same type of action that was employed when the funds were initially committed. This classification also includes contractual obligations to the extent that existing resources have been specifically committed for use in satisfying those contractual requirements.

<u>Assigned</u>: This classification includes amounts that are constrained by the County's intent to be used for a specific purpose but are neither restricted nor committed. This intent can be expressed by the Commissioners' Court.

<u>Unassigned</u>: This classification includes the residual fund balance for the General Fund. The unassigned classification also includes negative residual fund balance of any other governmental fund that cannot be eliminated by offsetting of assigned fund balance amounts.

When expenditure is incurred for the purposes for which both restricted and unrestricted fund balance is available, the County considers unrestricted funds to have been spent first. When expenditure is incurred for which committed, assigned, or unassigned fund balances are available, the County considers amounts to have been spent first out of unassigned funds, then assigned funds, and finally committed.

Fund balance of the Road and Bridge Fund is restricted for use on road and bridge construction within the County. The restrictions placed on fund balance for the General Fund as of September 30, 2015, are as follows:

Net Position

Net position represents the difference between assets, deferred outflows (inflows) of resources, and liabilities. Net position invested in capital assets, net of related debt consists of capital assets, net of accumulated depreciation, reduced by the outstanding balances of any borrowing used for the acquisition, construction or improvements of those assets, and adding back unspent proceeds. Net position is reported as restricted when there are limitations imposed on their use either through the enabling legislations adopted by the County or through external restrictions imposed by creditors, grantors or laws or regulations of other governments.

2. STEWARDSHIP, COMPLIANCE AND ACCOUNTABILITY

Budget Data

1. <u>Budget Policy</u>: The County of Orange annually adopts a budget for all revenue and expenditures as required by Texas law. All budget amounts presented in the accompanying financial statements have been adjusted for legally authorized revisions of the annual budgets during the year.

The County Judge is, by statute, the County Budget Officer and has the responsibility of preparing the annual budget. In April of each year, preparations are made for departments' submittals of their budget requests for the following year. During June and July, the Commissioners' Court conducts informal hearings with each department head to discuss his/her budget requests, during which time the County Auditor prepares an estimate for revenue resources and compiles the requested department expenditures.

A copy of the budget is filed with the Clerk of the County Court and is available for inspection by the public. Within seven days of the filing of the budget, and as near July 31 of the current year as possible, the Commissioners' Court conducts a public hearing on the County's budget.

The Court has the authority to make such changes in the budget as, in its judgment, the facts and the situation warrant, and the interest of the taxpayers' demand, provided the amounts budgeted for current expenditures from the various funds of the County shall not exceed the balances in these funds as of October 1, plus the anticipated revenue for the current year for which the budget is made, as estimated by the County Judge with the assistance of the County Auditor. Upon final approval of the budget by the Court, no expenditures of the funds of the County are made, except in substantive compliance with the budget.

The Commissioners' Court may authorize the County Auditor to transfer an existing budget surplus during the year to any fund not otherwise legally obligated.

- 2. <u>Encumbrances</u>: Encumbrance accounting is a system whereby purchase orders, contracts and other commitments for the expenditures of funds are recorded in order to reserve that portion of the applicable available funds. Year-end encumbrances are not included with final annual expenditures, but instead are carried over as restrictions of the following year's expenditures to which they relate. Any goods ordered, but delivered after the fiscal year is recorded as an expense of the new fiscal year.
- 3. <u>Budget Basis</u>: The budget is adopted whereby the Commissioner's Court does not budget certain designated-purpose fee revenues and expenditures. Also, according to Commissioners' Court policy, encumbered (i.e., committed, but unrealized) expenditures are combined with actual expenditures for purposes as budget-compliance measurements.

3. DETAILED NOTES ON ALL FUNDS

A. Cash and Investments

The Public Funds Investment Act (Government Code Chapter 22.56) contains specific provisions in the areas of investment practices, management reports, and establishment of appropriate policies. Among other things, it requires the County to adopt, implement, and publicize an investment policy. That policy must address the following areas: (1) safety of principal and liquidity; (2) portfolio diversification; (3) allowable investments; (4) acceptable risk levels; (5) expected rates of return; (6) maximum allowable stated maturity of portfolio investments; (7) maximum average dollar-weighted maturity based on the stated maturity date for the portfolio; (8) investment staff quality and capabilities; and (9) bid solicitation preferences for certificates of deposit. Statutes authorize the County to invest in: (1) obligations of the U. S. Treasury, certain U. S. Agencies, and the State of Texas; (2) certificates of deposit; (3) certain municipal securities; (4) money market savings accounts; (5) repurchase agreements; (6) bankers acceptances; (7) mutual funds; (8) investment pools; (9) guaranteed investment contracts; and (10) common trust funds. The Act also requires the County to have independent auditors perform net procedures related to investment practices as provided by the Act. The County is in substantial compliance with the requirements of the Act and with local policies.

In compliance with the Public Funds Investment Act, the County has adopted a deposit and investment policy. That policy addresses the following risks:

1. Custodial Credit Risk – Deposits: In the case of deposits, this is the risk that, in the event of bank failure, the County's deposits may not be returned to it. As of September 30, 2015, the County's entire bank balance was collateralized with securities held by the pledging financial institution or were covered by FDIC insurance.

- 2. Credit Risk: It is the County's policy to limit investments to investment types with an investment quality rating no lower than AAA or AAA-m or an equivalent rating by at least one nationally recognized rating service or no lower than investment grade by at least one nationally recognized rating service with a weighted average maturity no greater than 90 days. The County's investments in TexPool and Texas CLASS are rated AAAm by Standard & Poor's Investors Service.
- 3. *Interest Rate Risk:* In accordance with the County's investment policy, the County manages its exposure to declines in fair value by limiting the weighted average maturity of its investment portfolio to 25 months or less, dependent on market conditions.
- 4. Concentration of Credit Risk: The County's investment policy states the maximum percentage allowed for each different investment that can be used to make up the portfolio.

The County's investments at September 30, 2015, are shown below:

Investment Type	Fair	Value	Weighted Average Maturity (Days)
Primary government:			
TexPool	\$	28,610	41
Texas CLASS		1,089,274	53
Total fair value	\$	1,117,884	

B. Receivables

Receivables as of year-end for the government's individual major funds and nonmajor funds in the aggregate, including the applicable allowances for uncollectible accounts, are as follows:

		General		Road and Bridge		onmajor Funds		Total
Receivables:								
Sales taxes	\$	837,514	\$	-	\$	-	\$	837,514
Property taxes		4,579,214		271,040	2	218,249		5,068,503
Adjudicated fines		9,439,663		-		-		9,439,663
Other		1,003		-		-		1,003
Due from other governments	_	1,646,332		_	_			1,646,332
Gross receivables	_	16,503,726		271,040		218,249		16,993,015
Less: allowance for								
uncollectibles	(10,602,136)	(112,996)	(]	100,395)	(10,815,527)
Net total receivables	\$_	5,901,590	\$_	158,044	\$	117,854	\$	6,177,488

Governmental funds defer revenue recognition in connection with resources that have been received but not yet earned. At the end of the current fiscal year, the components of unearned revenue reported in the governmental funds were as follows:

	General	
	 Fund	 Total
Unearned revenue:		
Grant revenue	\$ 1,784,071	\$ 1,784,071
Total unearned revenue	\$ 1,784,071	\$ 1,784,071

C. Capital Assets

Capital asset activity for the year ended September 30, 2015, was as follows:

	Beginning			Ending
	Balance	Increases	Decreases	Balance
Government activities: Capital assets, not being depreciated:				
Land	\$1,681,170	\$	\$	\$1,681,170
Total capital assets not being depreciated	1,681,170			1,681,170
Capital assets, being depreciated:				
Buildings and improvements	32,854,451	568,800	-	33,423,251
Furniture, fixtures and equipment	14,121,847	416,156	(301,716)	14,236,287
Software	-	928,420	-	928,420
Infrastructure	27,286,354			27,286,354
Total capital assets being depreciated	74,262,652	1,913,376	(301,716)	75,874,312
Less accumulated depreciation:				
Buildings	9,838,246	841,811	-	10,680,057
Furniture, fixtures and equipment	9,902,333	1,021,750	(268,877)	10,655,206
Software	-	69,631	-	69,631
Infrastructure	14,337,080	770,434		15,107,514
Total accumulated depreciation	34,077,659	2,703,626	(268,877)	36,512,408
Total capital assets, being depreciated, net	40,184,993	(790,250)	(32,839)	39,361,904
Governmental activities capital assets, net	\$ 41,866,163	\$(\$(32,839)	\$ 41,043,074

Depreciation expense was charged to functions/programs of the primary government as follows:

Governmental activities:		
General administration	\$	270,363
Public works		1,378,849
Legal		243,326
Social services		81,109
Public safety	_	729,979
Total depreciation expense - governmental activities	\$ <u></u>	2,703,626

D. Interfund Receivables, Payables and Transfers

The composition of interfund balances (due to/from other funds) as of September 30, 2015, is as follows:

Receivable Fund	Pay able Fund	Amount
General Road and bridge	Nonmajor governmental General	\$ 217,614 1,081,488
Total		\$ <u>1,299,102</u>

All balances resulted from the time lag between the dates that (1) interfund goods and services are provided or reimbursable expenditures occur, (2) transactions are recorded in the accounting system, and (3) payments between funds are made.

The composition of interfund transfers as of September 30, 2015 is as follows:

Transfer In Fund	Transfer Out Fund	Amount		
Nonmajor governmental	General	\$	65,782	
Internal service fund	General	_	980,396	
Total		\$	1,046,178	

E. <u>Defined Benefit Pension Plan</u>

Plan Description. The County participates in a nontraditional defined benefit pension plan in the statewide Texas County and District Retirement System ("TCDRS"). The Board of Trustees of TCDRS is responsible for the administration of the statewide agent, multiple-employer, public employee retirement system consisting of nontraditional defined benefit pension plans. TCDRS issues a publicly available comprehensive annual financial report (CAFR) that can be obtained at www.tcdrs.org.

All eligible employees of the County are required to participate in TCDRS.

Benefits Provided. TCDRS provides retirement, disability and death benefits for all of its fulltime employees. Benefit provisions are adopted by the governing body of the County, within the options available in the state statutes governing TCDRS.

Members can retire at age 60 and above with 8 or more years of service, with 20 years of service regardless of age, or when the sum of their age and years of service equals 75 or more. Members are vested after eight years of service, but must leave their accumulated contributions in the plan to receive any employer-financed benefit. Members who withdraw their personal contributions in a lump sum are not entitled to any amounts contributed by their employer.

Benefit amounts are determined by the sum of the employee's contributions to the plan, with interest, and employer-financed monetary credits. The level of these monetary credits is adopted by the governing body of the employer within the actuarial constraints imposed by the TCDRS Act so that the resulting benefits can be expected to be adequately financed by the employer's commitment to contribute. At retirement, death or disability, the benefit is calculated by converting the sum of the employee's accumulated contributions and the employer-financed monetary credits to a monthly annuity using annuity purchase rates prescribed by the TCDRS Act.

Employees covered by benefit terms

At the December 31, 2014 valuation and measurement date, the following employees were covered by the benefit terms:

Inactive employees or beneficiaries currently receiving benefits	281
Inactive employees entitled to but not yet receiving benefits	124
Active employees	415
	820

Contributions. The contribution rates for employees in TCDRS are either 4%, 5%, 6%, or 7% of employee gross earnings, as adopted by the employer's governing body. Participating employers are required to contribute at actuarially determined rates to ensure adequate funding for each employer's plan. Under the state law governing TCDRS, the contribution rate for each entity is determined annually by the actuary and approved by the TCDRS Board of Trustees. The replacement life entry age actuarial cost method is used in determining the contribution rate. The actuarially determined rate is the estimated amount necessary to fund benefits in an orderly manner for each participate over his or her career so that sufficient funds are accumulated by the time benefit payments begin, with an additional amount to finance any unfunded accrued liability.

Employees for the County were required to contribute 7% of their annual gross earnings during the fiscal year. The contribution rates for the County were 13.84% and 14.26% in calendar years 2014 and 2015, respectively. The County's contributions to TCDRS for the year ended September 30, 2015, were \$2,837,715, and were equal to the required contributions.

Net Pension Liability. The County's Net Pension Liability (NPL) was measured as of December 31, 2014, and the Total Pension Liability (TPL) used to calculate the Net Pension Liability was determined by an actuarial valuation as of that date.

Actuarial Assumptions

The Total Pension Liability in the December 31, 2014, actuarial valuation was determined using the following actuarial assumptions:

Inflation 3.0% per year
Overall payroll growth 3.5% per year

Investment rate of return 8.1%, net of pension plan investment expense, including inflation

Mortality rates for active members, retirees, and beneficiaries were based on the following:

Depositing members The RP-2000 Active Employee Mortality Table for males with

a two-year set-forward and the RP-2000 Active Employee Mortality Table for females with a four-year setback, both

with the projection scale AA.

Service retirees, beneficiaries and non-depositing members

The RP-2000 Combined Mortality Table with the projection scale AA, with a one-year set-forward for males and no age

adjustment for females.

Disabled retirees RP-2000 Disabled Mortality Table for males with no age

adjustment and RP-2000 Disabled Mortality Table for females with a two-year set-forward, both with the projection scale

AA.

The actuarial assumptions that determined the total pension liability as of December 31, 2014, were based on the results of an actuarial experience study for the period January 1, 2009 through December 31, 2012, except where required to be different by GASB 68.

The long-term expected rate of return on pension plan investments is 8.10%. The pension plan's policy in regard to the allocation of invested assets is established and may be amended by the TCDRS Board of Trustees.

The long-term expected rate of return on TCDRS is determined by adding inflation to expected long-term real returns, and reflecting expected volatility and correlation. The capital market assumptions and information below are based on January 2015 information for a 7 to 10 year time horizon. The valuation assumption for long-term expected return is re-assessed at a minimum of every four years, and is set based on a 30-year time horizon; the most recent analysis was performed in 2013. The target allocation and best estimates of geometric real rates return for each major assets class are summarized in the following table:

Asset Class	Benchmark	Target Allocation (1)	Geometric Real Rate of Return (Expected minus Inflation) (2)
US Equities	Dow Jones U.S. Total Stock Market Index	16.50%	5.35%

 $^{^{(1)}}$ Target asset allocation adopted at the April 2015 TCDRS Board meeting.

⁽²⁾ Geometric real rates of return in addition to assumed inflation of 1.7% per Cliffwater's 2015 capital market assumptions.

⁽³⁾ Includes vintage years 2006-present of Quarter Pooled Horizon IRRs.

⁽⁴⁾ Includes vintage years 2007-present of Quarter Pooled Horizon IRRs.

Discount Rate

The discount rate used to measure the Total Pension Liability was 8.1%. The projection of cash flows used to determine the discount rate assumed that employee and employer contributions will be made at the rates specified in statue. Based on that assumption, the pension plan's Fiduciary Net Position was projected to be available to make all projected future benefit payments of current active and inactive employees. Therefore, the long-term expected rate of return on pension plan investments was applied to all period of projected benefit payments to determine the Total Pension Liability.

Changes in the Net Pension Liability

	Т	otal Pension Liability		Plan Fiduciary Net Position	Net Pension Liability		
		(a)		(b)	(a) - (b)		
Balance at 12/31/2013	\$	106,879,767	\$	98,175,341	\$	8,704,426	
Changes for the year:							
Service cost		2,954,608		-		2,954,608	
Interest on total pension liability (1)		8,571,838		-		8,571,838	
Effect of economic/demographic gains or losses	(586,980)		-	(586,980)	
Refund of contributions	(280,144)	(280,144)		-	
Benefit payments	(4,825,545)	(4,825,545)		-	
Administrative expenses		-	(77,763)		77,763	
Member contributions		-		1,405,400	(1,405,400)	
Net investment income		-		6,698,765	(6,698,765)

Other (2)			(116,283)		116,283	
Balance at 12/31/2014	\$	112,713,544	\$	103,758,446	\$	8,955,098	

⁽¹⁾ Reflects the change in the liability due to the time value of money. TCDRS does not charge fees or interest.

Sensitivity Analysis

The following presents the net pension liability of the County, calculated using the discount rate of 8.1%, as well as what the County's net pension liability would be if it were calculated using a discount rate that is 1-percentage-point lower (7.1%) or 1-percentage-higher (9.1%) than the current rate:

	Current						
	1% Decrease		D	iscount Rate	1% Increase 9.1%		
		7.1%		8.1%			
Total pension liability	\$	126,470,317	\$	112,713,544	\$	101,281,206	
Fiduciary net position		103,758,447		103,758,447		103,758,447	
Net pension liability/(asset)	\$	22,711,870	\$	8,955,097	\$ <u>(</u>	2,477,241)	

⁽²⁾ Relates to allocation of system-wide items.

Pension Plan Fiduciary Net Position

Detailed information about the pension plan's Fiduciary Net Position is available in a separately-issued TCDRS financial report. The report may be obtained on the Internet at www.tcdrs.org.

Pension Expense and Deferred Outflows of Resources and Deferred Inflows of Resources Related to Pensions

For the year ended September 30, 3015, the County recognized pension expense of \$2,469,414.

At September 30, 2015, the County reported deferred outflows of resources and deferred inflows of resources related to pensions from the following sources:

	Deferred			Deferred
]	Inflows	(Outflows
	of l	Resources	of Resources	
Differences between expected and actual economic experience	\$	469,584	\$	-
Difference between projected and actual investment earnings		-		1,029,517
Contributions subsequent to the measurement date			_	2,206,223
Total	\$	469,584	\$	3,235,740

\$2,206,223 reported as deferred outflows of resources related to pension resulting from contributions subsequent to the measurement date will be recognized as a reduction of the net pension liability for the year ending September 30, 2016. Other amounts reported as deferred outflows and inflows of resources related to pensions will be recognized in pension expenses as follows:

Year Ended	
September 30th	
2016	\$ 139,983
2017	139,983
2018	139,983
2019	139,983
Thereafter	-

F. Other postemployment benefit (OPEB) obligations

Plan Description

The County provides postretirement health care and death benefits to eligible retirees for retirees who meet all retirement eligibility requirements. Currently, 227 retirees meet those eligibility requirements. The County does not provide health care benefits for dependents of retirees. However, retirees have the option of purchasing dependent coverage through the County.

Funding Policy

The County pays 100% of the contribution for the individual medical coverage and for the retiree death benefit. The retiree pays 100% of the contribution for medical dependent coverage and dental coverage. All active employees who retire directly from Orange County and meet the eligibility criteria may participate.

Annual OPEB Cost and Net OPEB Obligation

The County's single-employer annual other postemployment benefit (OPEB) plan cost (expense) is calculated based on the employer's annual required contribution (ARC), an amount actuarially determined in accordance with the parameters of GASB Statement 45.

The ARC represents a level of funding that, if paid on an ongoing basis, is projected to cover normal cost each year and to amortize any unfunded actuarial liabilities (or funding excess) over a period not to exceed 30 years. The County's annual OPEB cost for the current year and the related information is listed below:

Annual Required Contribution (ARC)	\$ 4,371,163
Interest on Net OPEB Obligation	421,961
Adjustment to the ARC	(563,131)
Annual OPEB Cost	4,229,993
Contributions Made	(1,417,098)
Increase (decrease) in net OPEB obligation	2,812,895
Net OPEB obligation/(asset), beginning	9,376,900
Net OPEB obligation (asset), ending	\$ 12,189,795

The County does not issue separate financial statements for the plan and the County has not established a trust to fund the plan.

The County's annual OPEB cost, the percentage of annual OPEB cost contributed to the plan, and the net OPEB obligation for the prior three years (4.5% discount rate, and level percent of pay amortization) is shown in the chart below:

Fiscal	Annual				Percentage			Net		
Year	OPEB		Employer		Employer		of APC			OPEB
Ended	 Cost		Contribution		Contributed	_	О	bligation		
9/30/2013	\$ 4,159,056	\$	1,604,391		38.58%	\$		6,822,235		
9/30/2014	4,159,056		1,604,391		38.58%			9,376,900		
9/30/2015	4,229,993		1,417,098		33.50%			12,189,795		

Funding Status and Funding Progress

As of September 30, 2015, the actuarial accrued liability for benefits was \$42,607,352 all of which was unfunded. The covered payroll (annual payroll of active employees covered by the plan) was \$19,781,283 and the ratio of the unfunded actuarial accrued liability to the covered payroll was 215.39%.

The projection of future payments for an ongoing plan involves estimates of the value of reported amounts and assumptions about the probability of occurrence of events far into the future. Examples include assumptions about future employment, mortality, and the health care cost trend. Amounts determined regarding the funded status of the plan and the annual required contributions of the employer are subject to continual revision as actual results are compared with past expectations and new estimates are made about the future.

Actuarial Methods and Assumptions

Projection of benefits for financial reporting purposes are based on the substantive plan (the plan as understood by the employer and plan members) and include the types of benefits provided at the time of each valuation and the historical pattern of sharing of benefit costs between the employer and plan members to that point. The actuarial methods and assumptions used include techniques that are designed to reduce short-term volatility in actuarial accrued liabilities and the actuarial value of assets, consistent with the long-term perspective of the calculations.

In the September 30, 2015, actuarial valuation, the projected unit credit actuarial cost method was used. The actuarial assumptions included a 4.5 % investment rate of return (net of investment expenses) and an annual health care costs trend rate of 5%. The County's unfunded actuarial accrued liability is being amortized as a level percentage of projected payrolls on a closed basis. The remaining amortization period at September 30, 2015, was 30 years. Inflation rates were assumed to be 3%.

G. Short-term Debt

On November 1, 2014, the County issued \$4,000,000 tax and revenue anticipation notes for the purpose of paying all or a portion of the issuer's operating and current expenses in accordance with the provisions of Section 1431.004(a) (2) of the Texas Government Code. This is a draw note; the issuer may draw up to the total principal amount hereof to pay its budgeted operating expenses for the fiscal year ended September 30, 2015. The interest on this note is 1.95% per annum and the maturity date is February 28, 2015. The County made draws on this note in fiscal year 2015 in the amount of \$3,000,000. The principal balance of \$3,000,000 was repaid on January 27, 2015.

The following is a summary of general short-term debt activity of Orange County, Texas for the year ended September 30, 2015:

	Date	Interest	Balance			Balance	Due Within
	of Issue	Rate	09/30/14	Additions	Deletions	09/30/15	One Year
Tax & Revenue Anticipation Note, Series 2014	11/1/2014	1.95	\$	\$_3,000,000	\$ <u>3,000,000</u>	\$	\$
Total			\$	\$ 3,000,000	\$ 3,000,000	\$	\$

H. Long-term Debt

The following is a summary of general long-term debt activity of Orange County, Texas for the year ended September 30, 2015:

	Balance 9/30/2014	Additions		Deletions	Balance 9/30/2015	Due Within One Year
Compensated absences Net pension liability OPEB liability	\$ 2,516,719 8,704,425 9,376,900	\$ 1,571,183 5,833,777 2,812,895	\$	1,522,501 5,583,104	\$ 2,565,401 8,955,098 12,189,795	\$ 641,350
Total	\$ 20,598,044	\$ 10,217,855	\$_	7,105,605	\$ 23,710,294	\$ 641,350

I. Risk Management

Various claims and lawsuits are pending against the County. The County currently has one lawsuit where the judgment of \$1,504,650 in damages, \$440,116 in attorney's fees, and \$44,307 in costs are potentially going to be paid out by the County. It has been determined that this award is both probable and reasonably estimable, therefore a liability has been recorded in the governmental activities. The County is still seeking appeals on this judgment. As for the other outstanding lawsuits, it is the evaluation of the County management that any liability to the County will not have a material adverse impact on the County's financial position.

J. Commitments and Contingencies

The County participates in numerous state and federal grant programs, which are governed by various rules and regulations of the grantor agencies. Costs charged to the respective grant programs are subject to audit and adjustment by the grantor agencies; therefore, to the extent that the County has not complied with the rules and regulations governing the grants, refunds of any money received may be required and the collectability of any related receivable at September 30, 2015, may be impaired. In the opinion of the County, there are no significant contingent liabilities relating to compliance with the rules and regulations governing the respective grants; therefore, no provision has been recorded in the accompanying combined financial statements for such contingencies.

K. Special Item

On August 19, 2015, the County received \$881,400 for a lawsuit settlement with British Petroleum (BP). The settlement was for the economic loss suffered by Orange County as a result of the BP Deepwater Horizon oil spill in the Gulf of Mexico April 20, 2010.

NOTES TO SCHEDULE OF EMPLOYER CONTRIBUTIONS

FOR THE YEAR ENDED SEPTEMBER 30, 2015

Valuation Timing Actuarially determined contribution rates are calculated as of

December 31, two years prior to the end of the fiscal year in which the

contributions are reported.

Actuarial Cost Method Entry age normal

Asset Valuation Method

Smoothing period 5 years

Recognition method Non-asymptotic

Corridor None
Inflation 3.0%

Salary Increases The annual salary increase rates assumed for individual members vary

by length of service and by entry-age group. The annual rates consist of a general wage inflation component of 3.5% (made up of 3.0% inflation and 0.5% productivity increase assumptions) and a merit, promotion and longevity component that on average approximates

1.4% per year for a career employee.

Investment Rate of Return 8.1%

Cost-of Living Adjustments Cost-of-Living Adjustments for Alamo Area Council of Governments

are not considered to be substantively automatic under GASB 68. Therefore, no assumption for future cost-of-living adjustments is included in the GASB calculations. No assumption for future cost-of-

living adjustments is included in the funding valuation.

Retirement Age Experience-based table of rates based on a study of the period 2009-

2012.

Turnover New employees are assumed to replace any terminated members and

have similar entry ages.

Mortality

Depositing members The RP-2000 Active Employee Mortality Table for males with a two-

year set-forward and the RP-2000 Active Employee Mortality Table for females with a four-year setback, both with the projection scale

AA.

Service retirees, beneficiaries and non-

depositing members

The RP-2000 Combined Mortality Table with the projection scale AA, with a one-year set-forward for males and no age adjustment for

females

Disabled retirees RP-2000 Disabled Mortality Table for males with no age adjustment

and RP-2000 Disabled Mortality Table for females with a two-year set-

forward, both with the projection scale AA.

Other Information There were no benefit changes during the year.

(1) Individual entry age normal cost method, as required by GASB 68, used for GASB calculations. Note that a slightly different version of the entry age normal cost method is used for the funding actuarial valuation.

COMBINING FUND STATEMENTS AND SCHEDULES

NONMAJOR GOVERNMENTAL FUNDS
Special Revenue Funds are used to account for specific revenues that are legally restricted to expenditure for particular purposes. These funds are as follows:
Mosquito Control
Economic Development Corporation
Orange County Expo Center

Debt Service Funds are used to account for the accumulation of resources for and the payment of,

general long-term debt principal and interest.

FIDUCIARY FUNDS

District Attorney – This fund is used to account for restitution payable to victims and temporarily holds fees collected on felony hot checks.

Justices of the Peace – This fund is used to account for fees, fines and funds related to civil cases. Fees and fines are reportable to the County Treasurer, and a portion is disbursed by the Treasurer to the State.

County Clerk – This fund is used to account for all fees and fines collected by the County Clerk prior to remittance to the Treasurer and the State of Texas.

District Clerk – This fund is used to account for monies collected for court costs, fines and fees as agent for the County and the State of Texas.

Tax Assessor – This fund is used to account for monies collected for various taxes by the County Tax Assessor Collector.

Child Support – This fund is used to account for monies collected for beneficiaries.

Probation Officer – This fund is used to account for monies collected for probate purposes.

Sheriff – This fund is used to account for inmate funds in trust during incarceration, monies collected from commissary purchases, and fee collections by the Sheriff Department, which are reportable to the County Treasurer.

Constables – This fund is used to account for monies collected by the County Constables.

PATTILLO, BROWN & HILL, L.L.P. CERTIFIED PUBLIC ACCOUNTANTS BUSINESS CONSULTANTS

REPORT ON INTERNAL CONTROL OVER FINANCIAL REPORTING AND ON COMPLIANCE AND OTHER MATTERS BASED ON AN AUDIT OF FINANCIAL STATEMENTS PERFORMED IN ACCORDANCE WITH GOVERNMENT AUDITING STANDARDS

To the Honorable County Judge and Members of the Commissioners' Court Orange County, Texas

We have audited, in accordance with auditing standards generally accepted in the United States of America and the standards applicable to financial audits contained in *Government Auditing Standards* issued by the Comptroller General of the United States, the financial statements of the governmental activities, each major fund, and the aggregate remaining fund information of Orange County, Texas (the "County"), as of and for the year ended September 30, 2015, and the related notes to the financial statements, which collectively comprise the County's basic financial statements, and have issued our report thereon dated June 29, 2016.

Internal Control Over Financial Reporting

In planning and performing our audit of the financial statements, we considered the County's internal control over financial reporting (internal control) to determine the audit procedures that are appropriate in the circumstances for the purpose of expressing our opinions on the financial statements, but not for the purpose of expressing an opinion on the effectiveness of the County's internal control. Accordingly, we do not express an opinion on the effectiveness of the County's internal control.

A deficiency in internal control exists when the design or operation of a control does not allow management or employees, in the normal course of performing their assigned functions, to prevent, or detect and correct, misstatements on a timely basis. A material weakness is a deficiency, or a combination of deficiencies, in internal control, such that there is a reasonable possibility that a material misstatement of the entity's financial statements will not be prevented, or detected and corrected on a timely basis. A significant deficiency is a deficiency, or a combination of deficiencies, in internal control that is less severe than a material weakness, yet important enough to merit attention by those charged with governance.

TEMPLE, TX

254.791.3460

Our consideration of internal control over financial reporting was for the limited purpose described in the first paragraph of this section and was not designed to identify all deficiencies in internal control over financial reporting that might be material weaknesses or, significant deficiencies and therefore, material weaknesses or significant deficiencies may exist that were not identified. Given these limitations, during our audit we did not identify any deficiencies in internal control over financial reporting that we consider to be material weaknesses. However, material weaknesses may exist that have not been identified.

Compliance and Other Matters

As part of obtaining reasonable assurance about whether the County's financial statements are free from material misstatement, we performed tests of its compliance with certain provisions of laws, regulations, contracts, and grant agreements, noncompliance with which could have a direct and material effect on the determination of financial statement amounts. However, providing an opinion on compliance with those provisions was not an objective of our audit, and accordingly, we do not express such an opinion. The results of our tests disclosed no instances of noncompliance or other matters that are required to be reported under *Government Auditing Standards*.

Purpose of this Report

Patillo, Brown & Hill, L.L.P.

The purpose of this report is solely to describe the scope of our testing of internal control and compliance and the results of that testing, and not to provide an opinion on the effectiveness of the entity's internal control or on compliance. This report is an integral part of an audit performed in accordance with *Government Auditing Standards* in considering the entity's internal control and compliance. Accordingly, this communication is not suitable for any other purpose.

Waco, Texas June 29, 2016

REPORT ON COMPLIANCE FOR EACH MAJOR FEDERAL PROGRAM AND REPORT ON INTERNAL CONTROL OVER COMPLIANCE IN ACCORDANCE WITH OMB CIRCULAR A-133

To the Honorable County Judge and Members of Commissioners' Court Orange County, Texas

Report on Compliance for Each Major Federal Program

We have audited Orange County, Texas' compliance with the types of compliance requirements described in the U.S Office of Management and Budget (*OMB*) Circular A-133 Compliance Supplement that could have a direct and material effect on each of Orange County, Texas' major federal programs for the year ended September 30, 2015. Orange County, Texas' major federal programs are identified in the summary of auditors' results section of the accompanying schedule of findings and questioned costs.

Management's Responsibility

Management is responsible for compliance with the requirements of laws, regulations, contracts, and grants applicable to its federal programs.

Auditors' Responsibility

Our responsibility is to express an opinion on compliance for each of Orange County, Texas' major federal programs based on our audit of the types of compliance requirements referred to above. We conducted our audit of compliance in accordance with auditing standards generally accepted in the United States of America; the standards applicable to financial audits contained in *Government Auditing Standards*, issued by the Comptroller General of the United States; and OMB Circular A-133, *Audits of States, Local Governments, and Non-Profit Organizations*. Those standards and OMB Circular A-133 require that we plan and perform the audit to obtain reasonable assurance about whether noncompliance with the types of compliance requirements referred to above that could have a direct and material effect on a major federal program occurred. An audit includes examining, on a test basis, evidence about Orange County, Texas' compliance with those requirements and performing such other procedures as we considered necessary in the circumstances.

956.544.7778

TEMPLE, TX

254.791.3460

We believe that our audit provides a reasonable basis for our opinion on compliance for each major federal program. However, our audit does not provide a legal determination of Orange County, Texas' compliance.

Opinion on Each Major Federal Program

In our opinion, Orange County, Texas, complied, in all material respects, with the types of compliance requirements referred to above that could have a direct and material effect on each of its major federal programs for the year ended September 30, 2015.

Report on Internal Control Over Compliance

Management of Orange County, Texas, is responsible for establishing and maintaining effective internal control over compliance with the types of compliance requirements referred to above. In planning and performing our audit of compliance, we considered Orange County, Texas' internal control over compliance with the types of requirements that could have a direct and material effect on each major federal program as a basis for designing auditing procedures that are appropriate in the circumstances for the purpose of expressing an opinion on compliance for each major federal program and to test and report on internal control over compliance in accordance with OMB Circular A-133, but not for the purpose of expressing an opinion on the effectiveness of internal control over compliance. Accordingly, we do not express an opinion on the effectiveness of Orange County, Texas' internal control over compliance.

A deficiency in internal control over compliance exists when the design or operation of a control over compliance does not allow management or employees, in the normal course of performing their assigned functions, to prevent, or detect and correct, noncompliance with a type of compliance requirement of a federal program on a timely basis. A material weakness in internal control over compliance is a deficiency, or combination of deficiencies, in internal control over compliance, such that there is a reasonable possibility that material noncompliance with a type of compliance requirement of a federal program will not be prevented, or detected and corrected, on a timely basis. A significant deficiency in internal control over compliance is a deficiency, or a combination of deficiencies, in internal control over compliance with a type of compliance requirement of a federal program that is less severe than a material weakness in internal control over compliance, yet important enough to merit attention by those charged with governance.

Our consideration of internal control over compliance was for the limited purpose described in the first paragraph of this section and was not designed to identify all deficiencies in internal control over compliance that might be material weaknesses or significant deficiencies. We did not identify any deficiencies in internal control over compliance that we consider to be material weaknesses. However, material weaknesses may exist that have not been identified.

The purpose of this report on internal control over compliance is solely to describe the scope of our testing of internal control over compliance and the results of that testing based on the requirements of OMB Circular A-133. Accordingly, this report is not suitable for any other purpose.

Patillo, Brown & Hill, L.L.P.

NOTES TO SCHEDULE OF EXPENDITURES OF FEDERAL AWARDS

SEPTEMBER 30, 2015

1. BASIS OF ACCOUNTING

The Schedule of Expenditures of Federal Awards (the "Schedule") is prepared on the modified accrual basis of accounting. The information in this schedule is presented in accordance with the requirements of OMB Circular A-133, *Audits of States, Local Governments, and Non-Profit Organizations*. Therefore, some amounts presented in this schedule may differ from amounts presented in, or used in the preparation of, the basic financial statements.

2. REPORTING ENTITY

Orange County, Texas (the County), for purposes of the Schedule of Expenditures of Federal Awards, includes all the funds of the primary government.

3. RELATIONSHIP TO FEDERAL FINANCIAL REPORTS

The information included in the Schedule may not fully agree with other federal award reports that the County submits to granting agencies because, among other reasons, the award reports may be prepared for a different fiscal period and may include cumulative (from prior years) data rather than data for the current year only.
