

Addendum No. 1

To: All Plan Holders
Date: October 26, 2023
Project: Orange County, Texas
FEMA Public Assistance Funding, Precinct 2
RFP-23014

1. Question: Why are there so many small quantities in each street?

Answer: The County was awarded FEMA Public Assistance for these road repairs. FEMA Public Assistance provides funding for emergency assistance to restore community infrastructure affected by a federally declared disaster. Therefore, FEMA created these Scopes of Work to restore actual documented road damage caused by Hurricane Harvey which was found to be in multiple small sites as opposed to an entire road.

2. Question: What's the overall intent of this project? Are we doing all the quantities or some?

Answer: The intent of the project is to repair road damage caused by Hurricane Harvey using funds awarded to the County through FEMA Public Assistance. Work will include all the quantities in the base bid and, once bids are received, the County will determine alternate bid items. Any additional areas outside of the scope would be considered a change order and would be paid independently of specified quantities. Extra quantities will be considered for constructability concerns but not for convenience.

3. Question: Can you provide total Surface Areas in Square Yards (SY) for these streets?

Answer: Surface area measurements in Square Yards (SY) for Base Bid items are attached.

4. Question: What is the process to receive payment for this project since it is FEMA funded?

Answer: Although this project is funded by FEMA, the selected contractor will receive payment directly from the County as work is completed.

5. Question: Is the contractor responsible for retaining all excavated materials?

Answer: The County has multiple local areas available to place the excavated materials at no cost beyond trucking to the site. The contractor shall coordinate with the County on these areas during construction.

Addendum No. 1 issued by:
Orange County, Texas
