1. PURCHASING POLICY

A. Purpose

The purpose of this Purchasing Manual is to serve as a source of instruction to all County Departments and employees regarding the Purchasing Policies and Procedures of Orange County, Texas. The adoption of this Purchasing Manual and the approval of any subsequent revisions by Commissioners' Court shall authorize the policies and procedures contained herein for official use in County business.

B. Scope

The scope of this manual includes all departments under the jurisdiction of the Commissioners' Court, as well as all purchasing transactions that are paid for directly from County funds under the control of the Commissioners' Court.

C. Distribution

This manual will be available to all County Departments and all County Employees involved in the purchasing process. The Purchasing Department shall post this manual on the Orange County website.

D. Implementation

The Purchasing Agent shall be responsible for implementing and enforcing the policies and procedures outlined in this manual.

- The Purchasing Agent, as head of the Purchasing Department, shall exercise functional authority over the County purchasing process to implement and enforce these policies and procedures on a countywide basis, as well as in the Purchasing Department for its role in the process.
- Each Elected Official and/or Department Head shall be responsible for implementing and enforcing these policies and procedures within their respective agencies.
- A violation of any of the policies and procedures in this manual may be grounds for disciplinary action. In addition, a violation may result in the County's refusal to pay for any improperly ordered goods or services.
- The Commissioners' Court shall have the authority, in specific cases determined to be exceptional, to waive or override the policies and procedures in this manual and to direct a different handling of each such case.

E. Revisions

This manual serves as a permanent and up-to-date guide to County Purchasing Policies and Procedures. As necessary changes are made in policies and procedures, appropriate revisions will be made. The Purchasing Department shall be responsible for accurately maintaining this manual and posting revisions to the Orange County website.

F. Orange County Purchasing Policies and Procedures

The Orange County Purchasing Policy is to:

- Comply with all Federal and State laws that apply to County purchasing and comply with the policies and procedures outlined in this manual;
- Provide all responsible vendors and contractors with equitable access to servicing the needs of Orange County and its personnel through competitive acquisition of goods and services;
- Seek the best quality, lowest priced goods, and services that meet the needs of the County and its personnel;
- Manage County assets and inventory so that replacement costs are minimized and the County can account for all assets; and
- Dispose of all surplus, salvage seized, and abandoned property in a manner that both provides the most benefit to the taxpayers of Orange County and complies with the law.

G. The Purchasing Act

The Purchasing Act, Texas Local Government Code §262.023 reads:

(a) Before a County may purchase one or more items under a contract that will require an expenditure exceeding \$100,000.00 the Commissioners' Court of the County must

(1) comply with the competitive bidding or competitive proposal procedures prescribed by this subchapter.

(2) use the reverse auction procedure, as defined by Section 2155.062(d), Government Code, for purchasing; or

(3) comply with a method described by Chapter 2269, Government Code.

(b) The requirements established by Subsection (a) apply to contracts for which payment will be made from current funds or bond funds or through anticipation notes authorized by Chapter 1431, Government Code, or time warrants. Contracts for which payments will be made through certificates of obligation are governed by The Certificate of Obligation Act of 1971 (Subchapter C, Chapter 271)

(b-1) A County that complies with a method described by Chapter 2269, Government Code, as provided by authorized by Chapter 1431, Government Code, may not issue anticipation notes for the payment of the contract in an amount that exceeds the lesser of:

(1) Twenty percent (20%) of the county's budget for the fiscal year in which the county enters into the contract; or

(2) \$10 million.

(c) In applying the requirements established by Subsection (a), all separate, sequential, or component purchases of items ordered or purchased, with the intent of avoiding the requirements of this subchapter, from the same supplier by the same county officer, department, or institution are treated as if they are part of a single purchase and a single contract. In applying this provision to the purchase of office supplies, separate purchases of supplies by an individual department are not considered to be part of a single purchase and single contract by the county if a specific intent to avoid the requirements of this subchapter is not present."

The Purchasing Act applies to all departments of Orange County. The Purchasing Department acts as County representative on all matters pertaining to purchases. The Purchasing Department shall do the purchasing for any Orange County Department and all Elected Officials.

H. Purchasing Department Policies

Selection of Vendors

In the case of formal competitive bids or proposals, informal bids and informal proposals, the evaluation of bids and proposals and the selection of vendors shall be done by obtaining a view to attaining the best value for the money spent. Therefore, the vendor selected will be the bidder who submits the lowest and/or best bid. While "lowest" is self-explanatory, "best" is not. "Best" in this context means that which most completely conforms to specifications and is submitted by a responsible bidder.

I. Effective Date

These policies and procedures shall become effective upon approval by the Commissioners' Court.

J. Precedents and Interpretation

These policies and procedures shall be construed liberally to accomplish their purpose.

If there is any conflict between the policies and procedures and a county law, or a rule adopted under a county law, the stricter of the two provisions prevails.

The masculine, feminine, and neuter genders shall be construed to include the other genders as required. The singular and plural shall be construed to include the other number as required.

Headings and titles at the beginning of the various sections of these policies and procedures have been included only to make it easier to locate the subject matter covered by that section or subsection and are not to be used in construing these policies.

If any provision of these policies and procedures or the application of them to any person or circumstances is held invalid, the validity of the remainder of these policies and procedures and the application of them to other persons and circumstances shall not be affected.

In general, the Purchasing Agent interprets these policies and procedures, but the Commissioners' Court shall resolve any question regarding any interpretation of these policies and procedures when there is a conflict related to an area that is not within the statutory authority of the Purchasing Agent.

K. Grant Funded Purchases

Grants should be administered via a written contractual agreement between Orange County and the party providing the service. All purchases made with grant monies will comply with the terms and conditions of the grant, as well as the County's procedures regarding all purchases. The user department must provide the Purchasing Agent with a copy of all procurement requirements and deadlines in the grant document before any bid, proposal, purchase order, or advertising procedures. The user department must identify the allocated grant monies in the detailed description section when entering a requisition in the Tyler-ERP Pro 10 System. The user department shall be available for any clarification or additional information required ensuring compliance with the terms and conditions of the grant.

2. GENERAL PURCHASING POLICY AND PROCEDURES

A. General Information

Orange County will not be obligated to purchase goods that are delivered for use on a trial basis.

The following purchasing strategies that are made with the intention to circumvent the Purchasing Act (formal competitive bidding procedures) violate the law (Texas Local Government Code §262.023):

- **Component Purchases** – Purchasing a series of component parts of goods, which normally would be purchased as a whole.
- **Separate Purchases** – Purchasing goods and services in a series of separate purchases, which in normal purchasing practices, would have been a one-time purchase.
- **Sequential Purchases** – Purchases made over a period of time that in normal purchasing practices, would be made as one purchase.

Any commitment to acquire goods or services without an authorized purchase order is prohibited. **Anyone obligating an expenditure of funds for goods or services prior to securing a purchase order may be held personally responsible for the payment.** The Purchasing Department acts as County representative on all matters pertaining to purchases.

The user department must submit an agenda item to the Commissioners' Court for approval of any capital outlay item(s) not pre-approved for the current budget year.

Departments must ensure funding is budgeted and available. Departments shall not submit any requisition(s) to the Purchasing Department without sufficient funds. If funds are not available, it will be the responsibility of the user department to reconcile the expenditure(s) with the Orange County Auditor. Any submitted requisition(s) shall indicate that funds are budgeted and available for processing. Requisitions for, which there is not adequate funding will not be processed without the approval of the County Auditor.

Departments should plan purchases in order to keep expedited purchase requisitions to a minimum. The Purchasing Department is committed to processing all purchase requisitions within a reasonable time frame.

Departments must provide the Purchasing Department ample time to process purchase requests:

- Departments should allow a one (1) to three (3) working day cycle time after final approval of requisition on all purchases requested that are under \$100,000.00; and
- Departments should allow a six (6) to eight (8) week cycle time after final approval of requisition on all purchases requested that are over \$100,000.00 (but not limited to purchases over \$100,000.00).

Departments must ensure that all employees responsible for making department requests for purchases have read and understand the purchasing procedures outlined in this manual.

The Purchasing Department must review all purchase requests to ensure they are descriptive and specific but do not prevent competitive bidding of comparable goods.

B. [MIS Review of Data Processing Equipment](#)

The Management Information Systems Department (MIS) will review all purchase requests made by departments for software and hardware with respect to data processing equipment. This procedure is to ensure compatibility and standardization.

C. [Bidders' Lists](#)

The Purchasing Department maintains a list of vendors who have requested that they be sent notices of solicitations. This bidders' list is categorized by description of goods or services available to Orange County.

As a courtesy to vendors and as a means of encouraging competition, the Purchasing Department will attempt to send a notice of each solicitation to appropriate vendors.

3. BONDING REQUIREMENTS

Orange County Texas will require bonds for any construction, repair, or alteration of public works. **No purchase order will be released until the vendor provides all required documents to Orange County Purchasing.**

The successful bidder shall be required, at his own expense, to furnish the Orange County Purchasing Agent within ten (10) days of notification of award with certified copies of all bond(s) as per bid specifications. Failure to furnish bond(s) will result in the bid being declared non-responsive. Non-responsive bids will not be considered for award.

A. Minimum Bid Bonds

Bid bonds will not be required for contracts that are valued at less than \$100,000.00.

Bid bonds will not be required from any bidder or proponent whose rates are subject to regulation by a state agency as per Texas Local Government Code 262.032 (d).

If the Purchasing Agent determines that a bid bond is required for a particular contract, the notice to bidders or request for proposals or offers will state that a bid bond in the amount of 5% of the contract price is required and that it must be executed by a surety company authorized to do business in Texas.

B. Bid Bond

Orange County Texas will require bonds for construction, repair, or alteration of public works. A bid bond **MUST** be submitted with any bid over \$100,000.00. The bid bond shall be in the amount of 5% of the bid price and is to be issued by a surety company authorized to do business in Texas.

Bid bonds will not be required from any bidder or proponent whose rates are subject to regulation by a state agency as per Texas Local Government Code 262.032 (d).

No exception will be made. Failure to furnish a bid bond(s) with the bid will result in the bid being declared non-responsive. Non-responsive bids will not be considered for award.

C. Performance Bonds

Orange County Texas will require performance bonds for the construction, repair, or alteration of public works. The successful bidder shall be required, at his own expense, to furnish the Orange County Purchasing Agent within ten (10) days of notification of award with certified copies of all bond(s) as per bid specifications. Failure to furnish bond(s) will result in the bid being declared non-responsive.

For all contracts over \$50,000.00 for the construction, repair, or alteration of a public work or the prosecution or completion of any public work, the contractor must execute a performance bond that:

1. Is payable to the county,

2. Is in the full amount of the contract,
3. Is conditioned on faithful performance of the work in accordance with the plans, specifications, and contract documents,
4. Is solely for the protection of the county,
5. Executed by a corporate surety or sureties in accordance with the Insurance Code, and
6. Bond(s) must remain in effect for one year beyond the date of acceptance by the Owner.

Any performance bond that is furnished by a contractor in attempted compliance with the requirements of TEX. GOV'T CODE, Ch. 2253 will be construed as in conformity with that chapter in relation to rights created, limitations on the bond, and remedies provided. Bond must be executed by a corporate surety in accordance with Section 1, Chapter 87, Acts of 56th Legislature, Regular Session, 1959 (Article 7.19-1, Vernon's Texas Insurance Code)

No exception will be made. Failure to furnish performance bond(s) will result in the bid being declared non-responsive. Non-responsive bids will not be considered for award.

D. Payment Bond

Orange County Texas will require payment bonds for the construction, repair, or alteration of public works. If the Purchasing Agent determines that a payment bond is required for a particular contract, the notice to bidders or request for proposals or offers will state that a payment bond in the full amount of the contract price is required. Said payment bond must be executed by a company authorized to do business in Texas before the contractor commences work and within 10 days after the contract award is sent to the contractor.

Payment bonds will not be required from any bidder or proponent whose rates are subject to regulation by a state agency as per Texas Local Government Code 262.032 (d).

For all contracts over \$50,000.00 for the construction, repair, or alteration of a public work or the prosecution or completion of any public work, the contractor must execute a payment bond that:

A payment bond, must be issued by a State approved surety in accordance with Article 7.19-1 Bond of Surety Company; Chapter 7 of the Insurance Code, must also be for not less than one hundred percent (100%) of the contract price and remain in effect for one year beyond the date of acceptance by the Owner.

1. Is solely for the protection of all claimants supplying labor and material in the performance of work provided in the contract,
2. Is payable to the county for the use of these claimants,
3. Is in the full amount of the contract,
4. Executed by a corporate surety or sureties in accordance with the Insurance Code, and
5. Is in a form approved by the Commissioners' Court.

Payment bonds should be effective from commencement of performance until the end of the fourth month after all items of work, for the project are completed unless releases are obtained from all subcontractors and materials. Any payment bond that is furnished by a contractor in attempted compliance with the requirements of TEX. GOV'T CODE ANN., Ch. 2253 will be construed as in conformity with that chapter in relation to rights created, limitations on the bond, and remedies provided. Bond must be executed by a corporate surety in accordance with Section 1, Chapter 87, Acts of 56th Legislature, Regular Session, 1959 (Article 7.19-1, Vernon's Texas Insurance Code).

No exceptions to bond requests will be made. Failure to furnish bid bonds, performance bonds, and/or payment bonds will result in the bid being declared non-responsive. Non-responsive bids will not be considered for award.

4. SPECIFICATIONS

A. Definition

A "specification" is a concise description of goods or services that an entity seeks to buy, and the requirements the vendor must meet to be considered for the award. A specification may include requirements for testing, inspection, or preparing any goods or services for delivery, or preparing or installing them for use. The specification is the total description of the goods or services to be purchased.

Specifications, which shall be the basis of sealed bids or sealed proposals submitted to the Purchasing Agent, shall be written by the user department and must allow for competitive bidding. The Purchasing Agent shall not accept or write bid specifications, which, by design, exclude legitimate competitors. The Purchasing Agent shall not use brand names unless a disclaimer is included opening the specification to competing brands of equal quality. To facilitate specification development, user departments should submit their specifications in electronic format to the Purchasing Department. The primary purpose of any specification is to provide vendors with a firm criterion about a minimum standard acceptable for products, goods, and/or services and to provide purchasing personnel with a clear guideline from which to purchase. As a result, the specification should:

- Promote competitive bidding, and
- Provide a means to make an equitable award to the lowest and best bid from a responsible bidder.

An effective specification has the following characteristics:

- Simple – Avoids unnecessary detail, but is complete enough to ensure that purchased goods or services satisfy their intended purpose(s).
- Clear- Uses understandable terminology.

- Accurate – Uses units of measure that are compatible with industry standards, identifies all quantities, and describes packing requirements. State dimensions, weight, etc., if these values can satisfy the intended purpose.
- Competitive – Identifies products, goods, and/or services that satisfy the intended purpose. Avoid unneeded “extras” that could reduce or eliminate competition and increase costs.

B. Purpose

The purpose of any specification is to provide purchasing personnel with clear guides from which to purchase and to provide vendors with firm criteria of a minimum standard acceptable for goods or services. A good specification has four (4) characteristics:

- It establishes the minimum acceptability of the goods or services;
- It promotes competitive bidding;
- It contains provision for reasonable testing and inspection for acceptability of the goods or services; and
- It provides for an equitable award to the lowest and best bid from a responsible bidder.

C. Preparation

Specifications may be proposed by the user department or an outside agency. Acceptance of these specifications, other than those for construction projects, will rest with the Purchasing Department for compliance with legal purchasing requirements. The Commissioners’ Court may have final authority for approval of specifications. This will ensure proper quality control and avoid the proliferation of conflicting specifications. The Auditor’s Office will verify for the Purchasing Agent that the goods and services were considered and approved in the budget process. Any purchases that were not approved in the budget process must be submitted as an agenda item for the Commissioners’ Court by the user Department for approval. Upon approval, the Purchasing Department will process the order.

D. Types of Specifications

There are several specification types which will be employed by the Purchasing Department. They include:

Design

A design specification is comprised of a detailed description of goods or services, including such things as details of construction or production, dimensions, chemical composition, physical properties, materials, ingredients, and all other details needed for the provider to produce goods and services of minimum acceptability. Design specifications are usually required for construction projects, custom-produced goods, and many services.

Performance

A performance specification is one in which the goods or services are described in terms of required performance. They may include such details as required power, the strength of the material, test methods, standards of acceptability, and recommended practices. This type of specification should be used more often for equipment.

Brand Name

Brand Name or Equal. This type of specification lists goods or services by brand name, model, and other identifying specifics, except that products equal to the characteristics of the named brand are specified as acceptable. Usually, the composition of a brand-named good or service is provided through labeling, but broader tolerances and less consistency from item to item may be expected as compared with standard goods. Other manufacturers may provide a nearly identical good under their own name. The burden of proof of equality rests with the vendor. Final acceptance rests with Orange County.

Industry Standard

Industry Standard. This is one of the simplest specifications available. All goods made to an industry standard are identical, regardless of manufacturer, and will result in the acquisition of goods of uniform quality. An example is the UL standard for electrical products.

5. THE REQUISITION PROCESS

A. Definition

A “requisition” is a formal request for a purchase to be made. It is the first step after the need for goods or services is recognized.

The department’s requisition authorizes the Purchasing Department to enter into a contract with a vendor to purchase goods or services on the user department’s behalf. The user department may contact the Purchasing Department to obtain the cost for goods or services before a requisition is entered. If the cost exceeds the original requisition amount approved, the requisition must be re-approved by the user department.

Commissioners’ Court approves all capital outlay items in the fiscal year budget process. All capital outlay requests that are submitted by the user departments during the fiscal year budget process must obtain an official quote from the Purchasing Department.

Departments must ensure funding is budgeted and available. Departments shall not submit any requisition(s) to the Purchasing Department without sufficient funds. Purchasing does not process requisitions for which there is not adequate funding without the approval of the Orange County Auditor. If funds are not available, it will be the responsibility of the user department to reconcile the

expenditure(s) with the Orange County Auditor. Any submitted requisition(s) will indicate that funds are budgeted and available for processing. The user department must submit an agenda item to the Commissioners' Court for approval of any capital outlay item(s) not pre-approved for the current budget year. Any commitment to acquire goods or services without an authorized purchase order is prohibited. **Anyone obligating an expenditure of funds for goods or services before securing a purchase order may be held personally responsible for the payment.** The Purchasing Department acts as County representative on all matters pertaining to purchases.

To place an order, enter a requisition in the Tyler-ERP Pro 10 System, complete the requisition form, and complete departmental approval. It is the department's responsibility to follow their requisition to make sure it is approved. The form must include:

- Department name;
- Delivery address;
- Accounting code, must be correct for the product or service requested;
- Complete description of items requested, including part numbers if available;
- Amount budgeted must be available for goods or services requested;
- Identify grant (if applicable)
- Potential Vendor's name, address, phone number, and fax number; and
- Dollar value

This requisition is for internal use only and cannot be used by a department to order material. Do not acquire goods or services without an authorized purchase order.

To place an order by Manual Requisition, (will be used only if the Tyler-ERP Pro 10 System is inoperable) complete the requisition form and submit it to the Judge's Office. The form must include:

- Department name;
- Signature of department head or representative;
- Delivery address;
- Accounting code, must be correct for the product or service requested;
- Complete description of items requested, including part numbers if available;
- Amount budgeted must be available for goods or services requested;
- Identify grant (if applicable)
- Potential vendor's name, address, phone number, and fax number; and
- Dollar value

This form is for internal use only and cannot be used by a department to order materials directly from a vendor. Do not acquire goods or services without an authorized purchase order.

When a requisition is entered in the Tyler-ERP Pro 10 System (see section (B) below), please allow adequate time for requisition final approval and orders to be processed. Failure to allow ample time

for ordering and delivery can cause problems for vendors, the Purchasing Department, and the end user.

B. Tyler-ERP Pro 10 System

Orange County is using an automated requisitioning system referred to as the Tyler-ERP Pro 10 System. Based on established budget line items, requisitions are entered into the Tyler-ERP Pro 10 System by the user department. Adequate budget funds must be available in the departmental line items before the Purchasing Department can proceed with the purchase of requested goods and services.

After the Purchasing Department receives the departmentally approved requisition, it determines the appropriate purchasing procedures based on the cost of the purchase, the goods and services to be purchased, and the existing contracts for goods and services and other relevant factors. Specific instructions on entering purchase requisitions into the automated Tyler-ERP Pro 10 System are not covered in this manual. The user department may contact the Purchasing Department for questions or training.

C. Types of Requisitions

The Purchasing Department classifies requisitions according to the type of action and the time required for the purchase. There are three types of requisitions:

Routine

Normal (routine) purchases have a cycle time of one to three working days after final approval of requisition.

Expedited

Purchases where the goods or services are needed sooner than the routine cycle time may be expedited. Expedited purchases do not qualify as emergency purchases and are subject to all applicable bidding requirements. Expedited purchases are for goods or services needed quickly to prevent costly delays, and therefore warrant the additional cost and effort caused by the interruption of the normal work routine. Expedited purchases should only be made when required. Cycle time for expedited purchase requisitions is one (1) to two (2) working days after final approval of requisition.

Note: *Cycle time* refers to the time between when a purchase requisition is assigned to a buyer for action and when an actual purchase order is placed with a vendor. Cycle time does not include the time required for delivery, or the time it takes for the final requisition approval or the user department to make corrections to budget line-item accounts, commodity codes, etc.

D. Emergency

Goods or services may be purchased under emergency conditions when immediate action is required.

- **Purchases Under \$100,000:**

If the total cost is less than \$100,000, the purchase should be processed as an expedited purchase requisition.

- **Purchases Over \$100,000:**

If the total cost exceeds \$100,000, an exemption from the requirements of the Purchasing Act must be approved by order of the Commissioners' Court. The user department must promptly notify the Purchasing Department to initiate the required approval process.

Emergency purchases may be made when the Commissioners' Court has ordered an exemption in accordance with the Purchasing Act.

Under Texas Local Government Code §262.024(a)(1), an exemption applies to "an item that must be purchased in a case of public calamity if it is necessary to make the purchase promptly to relieve the necessity of the citizens or to preserve the property of the county."

E. Request for Emergency Purchase Order

Emergency purchase orders shall be used for the **IMMEDIATE PICK-UP** of items and/or services. Emergency purchase orders shall be used for the repair or prevention of costly department delays that would cause interruption of the normal work routine of Orange County and will be made only in those limited circumstances when the normal requisition process cannot be handled under routine conditions. The Purchasing Department will determine the appropriateness of each request. **Do Not acquire goods or services without an authorized purchase order. Under no circumstances are items to be picked up by the department before the issuance of an Emergency purchase order number. Anyone obligating an expenditure of funds for goods or services prior to securing an Emergency purchase order may be held personally responsible for the payment.**

The user department must contact the Purchasing Department to request an Emergency Purchase Order (EPO) number. When making the request, the department must provide a description of the goods or services needed, the estimated cost, and the vendor's name. A requisition must then be entered into the **Tyler ERP Pro 10 System** with all supporting documentation within **24 hours or by the next business day**. Note: Departments are hereby advised that all requests for Emergency purchase orders will indicate that funds are budgeted and available for processing. Balance funds must be monitored by the user department and must be available for use at the time of purchase. Purchasing does not process requisitions for which there is not adequate funding.

Emergency purchase orders shall not be used in lieu of the regular purchasing procedure or in lieu of a blanket purchase order. Orange County Purchasing Department must place all orders.

Emergency purchase orders shall be used for a single or aggregate purchase, but only for a single transaction.

Equipment is generally covered by warranty provisions for various periods of time. Care should be taken to ensure that full advantage is taken of warranty provisions prior to requesting an Emergency purchase order.

F. After Hours Orders

A requisition must be entered in the Tyler-ERP Pro 10 System with proper paperwork and must be submitted to the Purchasing Department during the next business day.

G. Blanket Orders

Blanket Orders supply items on an “as-needed basis.” Each blanket order will be for the current budget year and includes a maximum dollar amount within each departmental budget. Blanket orders will be utilized for items specific to that blanket order as requested by each department. Balance funds must be monitored by the user department and must be available for use at the time of each purchase. Do Not acquire goods or services without an authorized purchase order. The blanket form is available online. Complete the form as follows: Type in the description, quantity, and amount. The form will be totaled automatically. Print form. Obtain authorized signature. Forward the completed form and all paperwork to the Purchasing Department.

6. PROCUREMENT DOCUMENTS

It is important to have a basic understanding of what is meant by “procurement documents.” These documents describe the full contractual relationship between a county and a supplier of goods or services. Procurement documents are:

- Solicitations – These are invitations for bids, requests for quotations, and requests for proposals. These documents may result in a binding contract.
- Offers – These are bids, proposals, and quotes made by businesses to supply goods or services.
- Contracts – These are the final signed agreements between the government and the supplier to buy/sell. A purchase order is a type of contract.
- Amendments/Change Orders – These are changes to solicitation documents, offers, and contracts.

Many other documents are created during the process of making a purchase and are scanned into the system or kept in the purchasing file, but they are not technically “procurement documents.” These other documents include requests (requisitions) by departments for purchases of items; notes to the file to explain why a particular course of action was chosen; original specifications from the requesting department; final specifications; bidders notified of solicitations; excluded parties listing; and copies of advertisements.

The purchasing Agent has established purchasing categories for the purchase of all goods and services based on the anticipated price of such goods or service. Each Category specifies the information that must be obtained before issuing a purchase order.

7. PROCEDURES FOR PURCHASES UNDER \$100,000.00

A. Policy

For purchases of goods and services totaling less than \$100,000.00, the Purchasing Agent is authorized to select the goods or services to meet the requests of departments. The Purchasing Agent is authorized to select the vendor and to do all actions necessary to conclude a contract for the purchase of the goods and services, including execution of the contract without specific approval of the Commissioners' Court.

B. Considerations

In selecting the goods or services requested by the departments, the Purchasing Agent may consider the following:

- The stated needs of the department and whether the selected goods or services meet those needs;
- Available information about sources and prices of the goods and services;
- The delivery requirements of the vendor and the user department; and
- Any other information that a reasonable and prudent purchasing professional would consider in all circumstances of the purchase; or

- Whenever practical, surplus items from other departments may be transferred to meet departmental needs.

INFORMAL QUOTES

Informal Quotations are only used for purchases of items up to \$49,999:

- The Purchasing Department shall attempt to solicit quotes. Informal quotations may be obtained by telephone, fax, and email, in person or in writing.
- Orange County encourages competition by contacting as many vendors as possible. Utmost care must be taken, however, to ensure that vendors are given the same information and that prices are not disclosed from one vendor to another.
- For all purchases, the Purchasing Agent or designee shall make the determination of the “most responsive bidder.”
- For this section, the “most responsive bidder” shall be the bidder whose offer is determined to be the most advantageous to the County taking into consideration:
 - ❖ The price, delivery date, results of testing samples, special needs, and requirements of Orange County,
 - ❖ The capability, integrity, and reliability of the bidder to assure good faith performance.
 - ❖ Any evaluation factors supplied by the requesting department and Purchasing Department to the bidder.

8. COMPETITIVE BIDDING FOR PURCHASES EXCEEDING \$100,000.00

A. Definitions

Competitive bidding means letting available vendors compete to provide goods and/or services.

The Texas Supreme Court described it as: “Competitive bidding requires due advertisement, giving an opportunity to bid, and contemplates bidding on the same undertaking upon each of the same material items and services covered by the contract; upon the same thing. It requires that all bidders be placed upon the same plane of equality that they each bid upon the same terms and conditions involved in all the items and services and parts of the contract, and that the proposal specify as to all bids the same or substantially similar specifications.”

The term “Formal Competitive Bidding” is generally used in public purchasing when the bidding process is in compliance with the Texas Local Government Code §262.023 and requires approval by a governing board, such as the Commissioners’ Court.

Sealed Bids will be used for contracts exceeding \$100,000 (but will not be limited to contracts exceeding \$100,000). The Purchasing Department will solicit bids from vendors in response to the County’s specifications and contractual terms and conditions. The returned, signed, and awarded the bid, a notice of contract award letter signed by the Purchasing Agent, Purchase Order or Signed Contract will form the contract between Orange County and the successful bidder.

B. Purpose of Competitive Bidding

The first purpose of competitive bidding is to ensure that public monies are spent properly, legally, and for public projects only, and that the best possible value is received for the money.

The second purpose is to give those qualified and responsible vendors who desire to do business with Orange County a fair and equitable opportunity to do so. The use of a standard and consistent procurement process provides assurances that tax dollars are being spent properly.

The Texas Supreme Court states, “Its purpose is to stimulate competition, prevent favoritism, and secure the best work and materials at the lowest practicable price for the best interest of the taxpayers and property owners.”

C. Requisition

A requisition submitted by the user Department initiates the competitive bidding process. Descriptions, part numbers, and/or specifications should be submitted with the requisition and must follow the requisition process in Section 5 of this manual.

D. Bidding Notice

After the development of specifications and preparation of the Notice to Bidders, the Purchasing Department will advertise the bid.

As outlined in the Texas Local Government Code §262.025, “A notice of a proposed purchase must be published at least once a week for two consecutive weeks in a newspaper of general circulation in the County, with the first day of publication occurring at least 14 days before the date of the bid opening. If there is no newspaper of general circulation in the county, the notice must be posted in a prominent place in the courthouse for 14 days before the date of the bid opening. Notice published in a newspaper must include”

- (1) A general statement of the proposed purchase;
 - (2) The name and telephone number of the purchasing agent; and
 - (3) The county website address, if any
- (a) Subsection (a) does not require more than two notices in one newspaper or limit the County from providing additional notice for longer periods or in more locations.
- (b) The notice must include:
- (1) The specifications describing the item to be purchased or a statement of where the specifications may be obtained;
 - (2) The time and place for receiving and opening bids and the name and position of the county official or employee to whom the bids are to be sent;
 - (3) Whether the bidder should use lump-sum or unit pricing;
 - (4) The method of payment by the County; and
 - (5) The type of bond required by the bidder.
- (6) If any part of the payment for a proposed purchase will be made through time warrants, the notice also must include a statement of the maximum amount of time warrant indebtedness, the rate of interest on the time warrants, and the maximum maturity date of the time warrants.

E. Addendum

The bid opening date on the Notice to Bidders may be extended if an error is discovered, or the nature of the goods and services requires an extension. The Purchasing Agent may amend specifications to

clarify the original intent or to correct clerical errors if inquiries about the meaning of the specifications indicate the need for such an amendment; if the changes are so insignificant that they are not likely to matter to the vendor in determining price or ability to respond if there is no change to the quantity or delivery requirements; and if the amendment does not change the scope of the specifications. There should be at least forty-eight (48) hours between the date of the amendment and the opening date specified in the notice. All addenda(s) will be posted on the Orange County Purchasing website www.co.orange.tx.us. Vendors are responsible for monitoring the website in order to remain informed on addenda(s).

F. Receipt of Bids

The following procedures will be adhered to when receiving bids:

- All bids will be received in the Purchasing Department and will remain with the Orange County Purchasing Department.
- All bids will be stamped with the time and date received. The date stamp clock in the Purchasing Department will serve as the official time clock for the purpose of identifying the date and time bids were received by Orange County.
- No bids will be received after the opening time on the day of bid opening. All bids received after the opening time will be returned unopened to the bidder with a letter from the Purchasing Agent notifying the bidder that the submitted bid was received after the due date and time.
- After bids are received, a secure place will be provided in the Purchasing Department for holding the bids until the bid opening date. The bids are to be received sealed and shall remain sealed until opened on the advertised date and time by the Purchasing Agent or designated Purchasing Department employee in a public forum.
- In the event a sealed bid is opened inadvertently, another Purchasing Department employee will witness that the details of the bid, especially the price, were not reviewed and the bid was sealed again immediately, and the occasion documented.

G. Public Opening of Bids

Sealed bids will be opened publicly by the Purchasing Agent or designated Purchasing Department employee as per LGC §262.026 and will be documented. Bid tabulations will be posted on the Orange County Purchasing website www.co.orange.tx.us as soon as possible.

The Purchasing Agent, or a Purchasing representative, will open the bids on the date, time, and place specified in the notice. The date specified in the notice may be extended by the Commissioners' Court if an error is discovered in the original specifications. A bid or proposal that has been opened may not be changed for the purpose of correcting an error in the price.

H. Evaluation of Bids

The Purchasing Office will evaluate all bids, with assistance from the user department, a committee, or other designated authority, if applicable. A recommendation on the lowest responsible bid will be made to the Commissioners' Court. The Purchasing Department will evaluate bids based on:

- The relative price of the bids, including the cost of repair and maintenance if
- Heavy equipment is the subject of the bid, and the cost of delivery and hauling if road construction is involved.
- The price, delivery date, results of testing samples, special needs, and requirements of Orange County,
- The compliance of goods and services with specifications;
- The responsibility of the Vendor, including the Vendor's financial and practical ability to perform the contract; and
- The Vendor's safety record, if stated in the specifications.

The Purchasing Department will submit tabulation and award recommendations to the Commissioners' Court for inclusion on the Commissioners' Court Agenda for award.

Commissioners' Court shall either approve the recommendation or reject all bids and authorize the Purchasing Agent to re-bid the goods and/or services.

I. Contract Award

The Purchasing Agent shall recommend contract award as per Texas Local Government Code §262.027 to the Commissioners' Court in session. The Commissioners' Court shall:

- (1) Award the contract to the responsible bidder(s) who submits the lowest and best bid; or
- (2) Reject all bids and publish a new notice.

(b) If two responsible bidders submit the lowest and best bid, the Commissioners' Court shall decide between the two by drawing lots in a manner prescribed by the County Judge.

Texas Local Government Code §262.027(c) reads, "A contract may not be awarded to a bidder who is not the lowest dollar bidder meeting specifications unless, before the award, each lower bidder is given: notice of the proposed award; and is an opportunity to appear before the Commissioners' Court and present previously unconsidered evidence concerning the lower bid as best, which may include evidence of the bidder's responsibility."

Texas Local Government Code §262.027(g) reads: "If after the award the successful bidder fails to qualify for required bonds, or is otherwise unable to meet requirements of the award, the Commissioners' Court may award the contract to the next bidder in order of ranking as the lowest and best bid."

J. Contract Administration

The user department will be responsible for monitoring and documenting contractor performance/compliance. All documentation of non-compliance must be shared with Purchasing. If, after clarification, the vendor complies with expected performance standards, no further documentation will be required by purchasing. If poor performance or non-compliance with the contract is evidenced, purchasing will be responsible for initiating corrective action with the vendor.

The Purchasing Agent will take all steps related to obtaining compliance with the contract and will consult with the County Attorney and Commissioners' Court before taking any steps toward suspension or termination of the contract.

K. Re-bidding of Annual Contracts

The Purchasing Department monitors the expiration dates of all contracts that are maintained by the Purchasing Department. Purchasing will contact user departments to determine if annual contracts need to be re-bid or renewed. The user department will advise Purchasing of any additions, deletions, or corrections.

9. Competitive Proposals for Purchases Exceeding \$100,000.00

A. Definitions

Texas Local Government Code §262.030, States competitive proposals may be solicited through a Request for Proposal (RFP).

Formal sealed Requests for Proposals (RFPs) may be used for the purchase of insurance, high technology items, landscape maintenance, travel management, recycling, and special services exceeding \$100,000.00. The RFP will solicit proposals from vendors in response to the County's requirements and contractual terms and conditions. A formal contract must be approved by the Commissioners' Court.

"High technology" goods or services means goods or services of a highly technical nature, including:

The proposals are to be received sealed and shall remain sealed until opened on the advertised date and time by the Purchasing Agent or designated Purchasing Department employee in a public forum.

Proposals will be opened to avoid disclosure of contents to competing proponents and kept secret during the process of negotiation. All proposals that have been submitted shall be available and open

for public inspection after the contract is awarded, except for trade secrets and confidential information contained in the proposals and identified as such.

F. Evaluation of Proposals

The Purchasing Department will evaluate all proposals, with assistance from the user department, a committee, or other designated authority, if applicable.

The RFP must specify the relative importance of price and other evaluation factors. 10. STATE, COOPERATIVE AND FEDERAL CONTRACT PURCHASES

A. Introduction

The laws describe the authority of local governments to purchase goods and services through the Texas Building and Procurement Commission's Vendors. These laws allow purchasing from vendors with which the State has entered contracts as a result of competitive bidding procedures.

B. Authority to Purchase from State Purchasing, Cooperative, and Federal Contract Purchasing Programs

Texas Local Government Code §271.081 through §271.083 requires the Comptroller shall establish a program by which the Comptroller performs purchasing services for local governments authorizing Orange County to participate in the program.

Texas Local Government Code §271.101 through §271.102 reads; "A local Government may participate in cooperative purchasing program with another local government of this state or another state or with a local cooperative organization of this state or another state."

Texas Local Government Code §271.103 reads; " A local government may purchase goods or services available under Federal supply schedules of the United States General Services Administration to the extent permitted by federal law."

Texas Government Code 2155.502 states the County may purchase goods and services from a schedule of multiple award contracts developed by TPASS for the Texas Multiple Award Schedule (TXMAS).

The Interlocal Cooperation Act of the Texas Government Code 791.001 authorizes local governments to contract directly with other governments to increase their efficiency and effectiveness, Texas Government Code, Section 791.025(c) states that a local government that purchases goods and any services reasonably required for the installation, operation, or maintenance of those goods under the Interlocal Cooperation Act satisfies the requirement of the local government to seek competitive bids for the purchase of goods and their services.

National cooperatives such as Houston Area Council of Governments (H-GAC), Texas Association of School Boards (BuyBoard), the County participates in the purchasing programs of various local, state and Cooperative Purchasing Network (TCPN), OMNIA Partners, Department of Information Resources (DIR), Federal Supply Schedules (GSA), Texas Multiple Award Schedule (TXMAS), Texas Correctional Industries (TCI), Choice Partners, The Interlocal Purchasing System Program (TIPS) and Work Quest.

Under the Cooperative Purchasing Program, local government entities may purchase a variety of Information Technology (IT) products, software, and services from contracts awarded under GSA Federal Supply Schedule 70, Information Technology.

Local Government entities may also purchase alarm and signal systems, facility management systems, firefighting and rescue equipment, law enforcement and security equipment, marine craft and related equipment, special purpose clothing, and related services from contracts awarded under GSA Federal Supply Schedule 84, security, and law enforcement.

The Commissioners' Court authorizes the Purchasing Agent to execute all contracts for contract purchases that are procured in compliance, including purchases more than \$100,000.00, if funding for the purchase was previously approved by the Commissioners' Court. The Purchasing Agent acts for Orange County in all matters regarding the purchase of goods and services from a vendor under any contract based on any State Purchasing Program. Orange County is responsible for making payment directly to these vendors.

C. Policy

Orange County participates in the purchasing program of the State Purchasing and Texas Building and Procurement Commission for local governments.

D. Official Representative

The Purchasing Agent is designated to act for Orange County at the direction of the Commissioners' Court in all matters pertaining to purchasing, including the purchase of goods and services from the vendor under any contract. Orange County is responsible for making payments directly to the vendor.

E. Procedure

The Purchasing Agent is responsible for submitting requisitions to the Texas Building and Procurement Commission under any contract or sending purchase orders directly to vendors and reports to the commission on actual purchases in compliance with the commission's regulations. The Purchasing Department is responsible for the vendor's compliance with all the conditions of delivery and quality of the purchased goods and services. The Purchasing Agent is authorized to sign and deliver all necessary documents for purchases under this program made on behalf of Orange County.

11. PROCUREMENT OF PROFESSIONAL SERVICES

A. Introduction

The two principal laws with which the Purchasing Department must comply are the Professional Services Procurement Act and the Purchasing Act. Texas Gov't Code, Title 10, Ch. 2254, Subch. A and the Texas Local Gov't Code Ann., title 8, 262, subch. C.

There are two kinds of professional services:

- Those professional services specifically defined under the Professional Services Procurement Act; and
- Those “other” professional services that are not specifically defined under either the Professional Services Procurement Act or the County Purchasing Act and which must be obtained in compliance with the County Purchasing Act. The Purchasing Agent must rely on court cases and Attorney General Opinions to determine what services are included in these “other” professional services.

B. Purpose

The Purchasing Department may contract for professional services only if funds are budgeted for that purpose or the Commissioners’ Court approves the solicitation.

C. Professional Services Procurement Act Definition

Professional services are defined in the Professional Services Procurement Act as:

- Those within the scope of the practice of accounting, architecture, landscape architecture, land surveying, medicine, optometry, professional engineering, real estate appraising or professional nursing as defined by the laws of the State of Texas; and/or
- Those performed by any certified public accountant, architect, landscape architect, land surveyor, physician, surgeon, optometrist, professional engineer, licensed real estate appraiser, registered nurse in connection with his professional employment or practice.

The Act states that contracts for the procurement of these professional services may not be awarded on the basis of bids. Instead, services must be awarded on the basis of demonstrated competence and qualifications.

D. Procedure

Departments shall forward a requisition to the Purchasing Department when professional services are required. The requisition will identify the following:

1. Scope of work;
2. Qualifications/experience requirements;
3. Project description;
4. Time frames;
5. Budgeted amount and budget line items; and
6. Suggested professionals.

Based on the information provided in the requisition, applicable state laws, and all relevant facts, the Purchasing Agent will make a determination as to whether a formal RFQ or an informal procurement process will be implemented. Unless specifically exempted by the Commissioners’ Court, all professional services anticipated to cost over \$100,000.00 will be procured using the formal RFQ process.

The County shall rank firms based on their qualifications and then enter negotiations with the most qualified firm based on a fair and reasonable price. If the County is unable to negotiate a satisfactory contract with the most highly qualified vendor, negotiations will formally end with that person or firm. The next most highly qualified vendor will then be asked to negotiate. Negotiations are continued in this sequence until a contract is finalized. If any contract is entered into with one of the above-mentioned professionals on the basis of a competitive bid, it is contrary to state law and is void.

E. [Purchasing Act](#) **“Other” Services Defined**

As defined in this manual, “other” personal or professional services are those services usually referred to as a professional service, but not specifically defined or covered in the Professional Services Procurement Act. Examples include computer programmers, lawyers, facilitators, etc. Various court opinions have defined these “other” professional services as services requiring technical skill and expertise; labor and skill which are predominantly mental or intellectual, rather than physical or manual; or, a special skill and experience. “Other” personal services have been defined as services that must be performed by a particular person and, by the terms of the contract, no substitutions are allowed.

Bid bonds will not be required from any bidder or proponent whose rates are subject to regulation by a state agency as per Texas Local Government Code 262.032 (d).

I. Receipt of Competitive Bids

The following procedures will be adhered to when receiving bids:

1. The County Purchasing Department will receive all bids.
2. All bids will be stamped with the time and date received. The date stamp clock in the Purchasing Department will serve as the official time clock for the purpose of identifying the date and time bids were received by Orange County.
3. No bids will be received after the opening time on the day of the bid opening. All bids received after the opening time will be returned unopened to the bidder along with notification that the bid was received after the due date and time.
4. After bids are received, the Purchasing Department will provide a secure place for the holding of the bids until the bid opening date. The bids are to be received sealed and shall remain sealed until opened on the advertised date and time by the Purchasing Agent or designated Purchasing Department employee in a public forum.
5. In the event a sealed bid is opened inadvertently, another Purchasing Department employee will witness that the details of the bid, especially the price, were not reviewed and the bid was sealed again immediately, and the occasion documented.

J. Public Opening of Bids

Sealed bids will be opened publicly by the Purchasing Agent or designated Purchasing Department employee as per LGC §262.026 and will be documented. Bid tabulations will be posted on the Orange County Purchasing website www.co.orange.tx.us as soon as possible.

The **Purchasing** Agent or designated Purchasing Department employee will open the bids on the date; time and place specified in the notice and provide a copy to the Commissioners' Court. The date specified in the notice may be extended if the Commissioners' Court determines that the extension is in the best interest of the County. All bids, including those received before an extension is made, must be opened at the same time.

K. Evaluation of Bids

All bids will be evaluated and a recommendation will be made to Commissioners' Court. Purchasing will be responsible for placing the item on the Agenda of the Commissioners' Court.

Evaluation of bids may be based on the following factors:

1. The relative prices of the bids, including the cost of repair and maintenance of heavy equipment if that is the subject of the bid, and the cost of delivery and hauling if road construction equipment;
2. Compliance of goods and services offered with specifications;
3. The responsibility of the vendor, including the vendor's safety record if Commissioners' Court has adopted a definition of safety that is included in the bid; and
4. The past performance of the vendor.
5. As stated in bid specifications

When the lowest priced bid is not the best bid, clear justification for not selecting the lowest bidder must be documented to the Commissioners' Court. This recommendation will be supported by clear and concise documentation from the user department that defines the rationale for awarding to other than the lowest bidder.

L. Contract Award

The Purchasing Agent, Maintenance Supervisor, or designated outside agency will recommend contract award to Commissioners' Court in session. The Court shall as per Texas Local Government Code 262.027.

- (1) Award the contract to the responsive and responsible bidder who submits the lowest and best bid;
or
 - (2) Reject all bids and publish a new notice.
- (b) If two responsive and responsible bidders submit the lowest and best bid, the Commissioners' Court shall decide between the two by drawing lots in a manner prescribed by the County Judge.
 - (c) A contract may not be awarded to a bidder who is not the lowest dollar bidder meeting specifications unless, before the award, each lower bidder is given:

- (1) notice of the proposed award and
- (2) an opportunity to appear before the Commissioners' Court and present previously unconsidered evidence concerning the lower bid as best, which may include evidence of the bidder's responsibility.

After award, the Purchasing Agent will return the bid bonds of any contractor that was not awarded a contract.

After an award is made, a contract will be processed, and copies of the contract will be sent to the contractor and be on file in the Purchasing Department.

M. Contract Administration

The Project Manager, Maintenance Supervisor, or designated outside agency or user department will be responsible for monitoring and documenting contractor performance/compliance and provide Purchasing with copies of this documentation, thereby keeping Purchasing apprised of all performance and compliance issues. Discussions that merely explain the interpretation of the specifications may be dealt with orally by the user department. If poor, in the sole discretion of the user department, performance or non-compliance with the contract is evident; the user department will be responsible to initiating written corrective action with the contractor. Purchasing will be provided an advance copy of any written correspondence directing correction of a discrepancy. The user department will solicit Purchasing to initiate corrective action when the user department cannot resolve any conflict through correspondence.

The occupant department must not provide any instruction or requests for changes directly to the contractor. Only the user department's Project Manager or the Maintenance Supervisor has the authority to give any directions directly to the contractor.

The Project Manager, Maintenance Supervisor or designated outside agency will take all steps related to correcting non-compliance with the contract but must consult with the Commissioners' Court or County Attorney before taking any steps toward suspension or termination of the contract unless emergency, life safety, or property damages issues require immediate temporary work stoppage. Before any letters, notices, or other communication related to termination or suspension are delivered, the contents of these must be reviewed by the County Attorney and Commissioners' Court as the initial steps toward potential litigation.

13. EXEMPTIONS TO THE COMPETITIVE PROCUREMENT PROCESS

A. Purchasing Act

Many goods and services can be exempted from the competitive procurement process if the Commissioners' Court orders the purchase exempt. Texas Local Government Code 262.024 lists all the circumstances when exemptions are allowable for purchases made from current funds, bond funds, or through time warrants. B. Public Property Finance Act

Texas Local Government Code 271.041 (C) lists all the circumstances when exemptions are available for purchases made from a certificate of obligation funds.

C. Policy

Exemption orders must be processed through the Purchasing Department. In all cases except the acquisitions of interests in land for county roads, bridges, and parks, and all fee simple purchases of real property, the Purchasing Agent will request the exemption order from the Commissioners' Court.

D. Emergency

"Emergency" means circumstances in which an immediate response is required to provide for the safety of persons or property.

E. Sole Source Goods and Services

Sole source goods and services require a statement from the vendor that will be submitted for acceptance by the Commissioners' Court and must be entered in the minutes of the meeting of Commissioners' Court. The statement shall include the existence of only one source, and specifically noting which type of listed sole source goods or services is being purchased. Sole source is defined as: only one vendor possesses the unique and singularly available capability to meet the requirement of the solicitation. Goods or services for which competition is precluded because of the existence of patents, copyrights, secret process, or monopolies.

the lowest bid price received by the local government from a bidder who is not a resident of the local government, the local government may enter into a contract with:

- (1) the lowest bidder; or
 - (2) the bidder whose principal place of business is in the local government if the governing body of the local government determines, in writing, that the local bidder offers the local government the best combination of contract price and additional economic development opportunities for the local government created by the contract award, including the employment of residents of the local government and increased tax revenues to the local government.
- (d) This section does not prohibit a local government from rejecting all bids.

15. RENEWAL OF EQUIPMENT LEASES AND MAINTENANCE CONTRACTS

Texas Local Government Code 262.024 (b) reads, “The renewal or extension of a lease or of an equipment maintenance agreement is exempt from the requirement established by Section 262.023 if the Commissioners’ Court by order grants the exemption, and if:

- (1) the lease or agreement has gone through the competitive bidding procedure within the preceding year;
- (2) the renewal or extension does not exceed one year; and
- (3) the renewal or extension is the first renewal or extension of the lease or agreement.

Texas Local Government Code 262.024 (c) reads, “If an item exempted under Subsection (a) (7) is purchased, the Commissioners’ Court, after accepting a signed statement from the county official who makes purchases for the county as to the existence of only one source, must enter in its minutes a statement to that effect.”

Contracts and/or renewals may be made ONLY by Commissioners’ Court approval and agreement between Orange County and the offeror. Contracts for service and repair of equipment are generally established annually or at the acquisition of the equipment. The Purchasing Department will coordinate service agreements. Departments will contact authorized vendors when service/repair of equipment is needed.

16. DEBARMENT AND SUSPENSION

In an effort to provide assurance to the Federal Government that the State of Texas and its sub-recipients comply with Federal Executive Order 12549, 44 CFR 13.35 (“Sub-awards to debarred and suspended parties”), and the Texas Uniform Grant Management System (UGMS), the Texas Department of Public Safety/Texas Homeland Security-State Administrative Agency requires all Homeland Security Grant Program sub-recipients (to include all programs administered by the TXDPS/THS-SAA) check the debarment status of all vendors before contracting with or making any purchases with funds from any federal grant.

The Excluded Parties Listing Systems (EPLS) is an electronic database of parties excluded from federal procurement and non-procurement programs and is located at <https://www.SAM.Gov>. The EPLS identifies those parties excluded throughout the U.S. Government (unless otherwise noted) from receiving Federal contracts or certain subcontracts and from certain types of Federal financial and nonfinancial assistance and benefits.

22. FEDERAL FUNDED CONTRACTS – PROCUREMENT STANDARDS AND ASSOCIATED MATTERS

Orange County shall comply with all requirements outlined under Chapter 2 CFR Part 200 when executing procurements using federal funds, including but not limited to the following:

- I. Orange County shall comply with all general procurement requirements as outlined in 2 CFR 200.318.
 - a. Orange County shall comply with all applicable state and local laws and regulations, provided that the procurements also conform to applicable Federal law and standards.
 - b. Orange County shall maintain oversight to ensure that contractors perform in accordance with the terms, conditions, and specifications of their contracts or purchase orders.
 - c. Officers, employees, and agents of Orange County shall neither solicit nor accept gratuities, favors or anything of monetary value from contractors or parties to subcontracts.
 - d. Orange County shall avoid acquisition of unnecessary or duplicative items. Consideration shall be given to consolidating or breaking out procurements to obtain a more economical purchase. Where appropriate, an analysis will be made of lease versus purchase alternatives, and any other appropriate analysis to determine the most economical approach.
 - e. Officers, employees, and agents of Orange County are encouraged to enter into state and local intergovernmental agreements where appropriate for procurement or use of common or shared goods and services.
 - f. Orange County shall use Federal excess and surplus property in lieu of purchasing new equipment and property whenever such use is feasible and reduces project costs.
 - g. Orange County shall use value engineering clauses in contracts for construction projects of sufficient size to offer reasonable opportunities for cost reductions. Value engineering is a systematic and creative analysis of each contract item or task to ensure that its essential function is provided at the overall lower cost.
 - h. Orange County shall award contracts only to responsible contractors possessing the ability to perform successfully under the terms and conditions of a proposed procurement. Consideration shall be given to such matters as contractor integrity, compliance with public policy, record of past performance and financial and technical resource.

i. Orange County shall maintain records sufficient to detail the history of procurement. These records will include, but are not limited to the following: rationale for the method of procurement, selection of contract type, contractor selection or rejection and the basis for the contract price.

j. Orange County may use time and material type contracts only after a determination that no other contract is suitable and if the contract includes a ceiling price that the contractor exceeds at its own risk. Time and material type contract means a contract whose cost to a non-Federal entity is the sum of:

- i. The actual cost of materials; and
- ii. Direct labor hours charged at fixed hourly rates that reflect wages, general and administrative expenses, and profit.

k. If a time and material contract is necessary, Orange County shall assert a high degree of oversight in order to obtain reasonable assurance that the contractor is using efficient methods and effective cost controls.

l. Orange County shall be responsible, in accordance with good administrative practice and sound business judgment, for the settlement of all contractual and administrative issues arising out of procurements. These issues include, but are not limited to, source evaluation, protests, disputes and claims.

II. Orange County shall comply with all requirements as outlined in 2 CRF 200.321 regarding inclusive contracting practices with small and minority businesses, women's business enterprises, and labor surplus area firms.

a. Orange County shall take all necessary affirmative steps to assure that minority businesses, women's business enterprises, and labor surplus area firms are given opportunities to compete.

b. Affirmative steps shall include:

- i. Placing qualified small and minority businesses and women's business enterprises on solicitation lists;
- ii. Assuring that small and minority businesses and women's business enterprises are solicited whenever they are potential sources;
- iii. Dividing total requirements, when economically feasible, into smaller tasks or quantities to permit maximum participation by small and minority businesses and women's business enterprises;
- iv. Establishing delivery schedules, where the requirement permits, which encourage participation by small and minority businesses and women's business enterprises; v. Using the services and assistance, as appropriate, of such organizations as the Small Business Administration and the Minority Business Development Agency of the Department of Commerce; and
- vi. Requiring the prime contractor, if subcontracts are to be let, to take the affirmative steps listed in paragraphs (1) through (5) of this section.

III. Officers, employees, and agents of Orange County shall comply with all requirements as outlined in 2 CRF 200.322 regarding the procurement of recovered materials.

a. Orange County and its contractors shall comply with section 6002 of the Solid Waste Disposal Act, as amended by the Resource Conservation and Recovery Act. The requirements of Section 6002 include

procuring only items designated in the guidelines of the Environmental Protection Agency (EPA) at 40 CFR part 247 that contain the highest percentage of recovered materials practicable, consistent with maintaining a satisfactory level of competition, where the purchase price of the item exceeds \$10,000 or the value of the quantity acquired by the preceding fiscal year exceeded \$10,000; procuring solid waste management services in a manner that improves energy and resource recovery;

- b. and establishing an affirmative procurement program for the procurement of recovered materials identified in the EPA guidelines.

IV. Orange County shall comply with all requirements as outlined in 2 CRF 200.320 regarding the allowable methods for procurement utilizing federal funds and shall also comply with the County Purchasing Policy. The allowable purchasing methods and requirements include:

- a. Purchases up to \$3,000 (Micro-Purchases): Micro-purchases may be awarded without soliciting competitive quotations if the non-Federal entity considers the price to be reasonable. To the extent practicable, Orange County shall distribute micro-purchases equitably among qualified suppliers. Procurements must also comply with all other requirements for competition under Orange County Policy.
- b. Purchases above \$3,000 and below \$50,000 (Small Purchases): Price or rate quotations must be obtained from an adequate number of qualified sources. Procurements must also comply with all other requirements for competition under Orange County Policy.
- c. Purchases of 50,000 or more must comply with all requirements for competition under Orange County Policy and should also include one of the following options:
 - i. Procurement by sealed bids with formal advertising is required. Bids are publicly solicited and a firm fixed price contract (lump sum or unit price) is awarded to the responsible bidder whose bid, conforming with all the material terms and conditions of the invitation for bids, is the lowest in price. The sealed bid method is the preferred method for procuring construction.
 - 1. Should sealed bids be used, they shall ensure an adequate number of suppliers and a detailed invitation for bid that includes the time and place for bid;
 - 2. A firm fixed price contract will be granted to the lowest responsive bidder;
 - 3. Any bid may be rejected if there is a sound documented reason.
- d. Procurement by competitive proposals may be used when conditions are not appropriate for the use of sealed bids. If this method is used, the following requirements apply:
 - 1. Requests for proposals must be publicized and identify all evaluation factors and their relative importance. Any response to publicized requests for proposals must be considered to the maximum extent practical;
 - 2. Proposals must be solicited from an adequate number of qualified sources;
 - 3. The non-Federal entity must have a written method for conducting technical evaluations of the proposals received and for selecting recipients;
 - 4. Contracts must be awarded to the responsible firm whose proposal is most advantageous to the program, with price and other factors considered; and
 - 5. The non-Federal entity may use competitive proposal procedures for qualifications-based procurement of architectural/engineering (A/E) professional services whereby competitors' qualifications are evaluated and the most qualified competitor is selected, subject to negotiation of

fair and reasonable compensation. The method, where price is not used as a selection factor, can only be used in the procurement of A/E professional services. It cannot be used to purchase other types of services though A/E firms are a potential source to perform the proposed effort.

- e. Procurement by noncompetitive proposals. Procurement by noncompetitive proposals is procurement through solicitation of a proposal from only one source and may be used only when one or more of the following circumstances apply:
 - 1. The item is available only from a single source;
 - 2. The public exigency or emergency for the requirement will not permit a delay resulting from competitive solicitation;
 - 3. The Federal awarding agency or pass-through entity expressly authorizes noncompetitive proposals in response to a written request from the non-federal entity; or
 - 4. After solicitation of a number of sources, competition is determined inadequate.

A. Advance Payment Requirements and Procedures.

This section of the procurement system of Orange County, Texas ("County") a non-Federal entity other than a state, is intended to provide written procedures to implement the requirements of 2 CFR 200.305, including establishing payment methods to minimize the time elapsing between the transfer of funds from the United State Treasury or any pass-through entity and the disbursement by the County whether the payment is made by electronic funds or transfer, or issuance or redemption of checks, warrants, or payment by other means, to meet Federal standards for fund control and accountability.

Advance payments received by the County shall be limited to the minimum amounts needed and shall be timed to be in accordance with the actual, immediate cash requirements of the County in carrying out the purpose of the approved program or project, with the timing and amount of advance payments to be as close as is administratively feasible to the actual disbursements by the County for direct program or project costs and the proportionate share of any allowable indirect costs.

- 1) The County shall make timely payments to contractors in accordance with the contract provisions.
- 2) Whenever possible, advance payments shall be consolidated to cover anticipated cash needs for all Federal awards made by the Federal awarding agency to the County.
- 3) Advance payment mechanisms including Treasury checks and electronic funds transfer shall comply with applicable guidance in 2 CFR Part 208.
- 4) The County may submit requests for advance payments and reimbursements monthly when electronic fund transfers are not used, and more often when electronic transfers are used, in accordance with the Electronic Fund Transfer Act (15 U.S.C. 1693-1693r).
- 5) When the reimbursement method is used, the County shall make payment within 30 calendar days after receipt of the billing, unless the Federal awarding agency or pass-through entity reasonably believes the request to be improper.
- 6) When the cash method on a working capital advance basis is used, and advance cash payments are made to the County to cover its estimated disbursement needs for an initial period generally geared to the County's disbursing cycle, thereafter the County may receive from the Federal awarding agency or pass-through entity reimbursement for the County's actual cash disbursements.
- 7) Use of resources before requesting case advance payments – To the extent available, the County shall disburse funds available from program income (including repayments to a revolving fund), rebates,

refunds, contract settlements, audit recovered, and interest earned on such funds before requesting additional cash payments.

8) The County shall always, including during the period of performance:

- a) Comply with the project objectives, Federal statutes, regulations, or the terms and conditions of the Federal award;
- b) Not be delinquent in a debt to the United States as defined in OMB Guidance A-129, "Policies for Federal Credit Programs and Non-Tax Receivables," and;
- c) Comply with Federal award conditions.

9) In regard to the use of banks and other institutions as depositories of advance payments under Federal awards, the County shall always be able to account for the receipt, obligation, and expenditure of funds, and advance payments of Federal funds shall be deposited and maintained in insured accounts whenever possible.

10) The County shall maintain advance payments of Federal awards in interest-bearing accounts, unless the following apply:

- a) The County receives less than \$120,000 in Federal awards per year;
- b) The best reasonably available interest-bearing account would not be expected to earn interest in excess of \$500 per year on Federal cash balances;
- c) The depository would require an average or minimum balance so high that it would not be feasible within the expected Federal and non-Federal cash resources; or
- d) A foreign government of banking system prohibits or precludes interest bearing accounts.

11) Interest earned up to \$500 per year may be retained by the County for administrative expense but any additional interest earned on Federal advance payments deposited in interest-bearing accounts shall be remitted annually to the awarding agency through an electronic medium using either ACH network or as otherwise prescribed by awarding agency.

B. PROVISIONS

Pursuant to 2 CFR §200.327, in addition to other provisions required by the Federal agency or non-Federal entity, all contracts made by the non-Federal entity under the Federal award must contain provisions covering the following, as applicable.

(B) All contracts in excess of \$10,000 must address termination for cause and for convenience by the non-Federal entity including the manner by which it will be affected and the basis for settlement.

(C) Equal Employment Opportunity. Except as otherwise provided under 41 CFR Part 60, all contracts that meet the definition of "federally assisted construction contract" in 41 CFR Part 60-1.3 must include the equal opportunity clause provided under 41 CFR 60-1.4(b), in accordance with Executive Order 11246, "Equal Employment Opportunity" (30 FR 12319, 12935, 3 CFR Part, 1964-1965 Comp., p. 339), as amended by Executive Order 11375, "Amending Executive Order 11246 Relating to Equal Employment Opportunity," and

implementing regulations at 41 CFR part 60, “Office of Federal Contract Compliance Programs, Equal Employment Opportunity, Department of Labor.”

When required by Federal program legislation, all prime construction contracts in excess of \$2,000 awarded by non-Federal entities must include a provision for compliance with the Davis-Bacon Act (40 U.S.C. 3141–3144, and 3146–3148) as supplemented by Department of Labor regulations (29 CFR Part 5, “Labor Standards Provisions Applicable to Contracts Covering Federally Financed and Assisted Construction”). In accordance with the statute, contractors must be required to pay wages to laborers and mechanics at a rate not less than the prevailing wages specified in a wage determination made by the Secretary of Labor. In addition, contractors must be required to pay wages not less than once a week. The non-Federal entity must place a copy of the current prevailing wage determination issued by the Department of Labor in each solicitation. The decision to award a contract or subcontract must be conditioned upon the acceptance of the wage determination. Work in excess of the standard work week is permissible provided that the worker is compensated at a rate of not less than one and a half times the basic rate of pay for all hours worked in excess of 40 hours in the work week. The requirements of 40 U.S.C. 3704 are applicable to construction work and provide that no laborer or mechanic must be required to work in surroundings or under working conditions which are unsanitary, hazardous or dangerous. These requirements do not apply to the purchases of supplies or materials or articles ordinarily available on the open market, or contracts for transportation or transmission of intelligence.

(F) Rights to Inventions Made Under a Contract or Agreement.
